GUATEMALA CITY, Nov. 5. (P-

Exclusive)—The volcanic eruption of Santa

Maria, which broke out with renewed

force early today, is estimated that

nearly 300 have been killed and 200

injured although only thirty-seven

bodies have been recovered.

The extreme heat in the vicinity

of the crater and lava streams

make it impossible to determine

with exactitude the damage still

being done. It is reported that

bodies of persons caught in the flow

yesterday still can be seen on the

top of the moving streams of lava.

A body of a man was seen on a

tree branch hanging over one of

the streams. His escape apparently

had been cut off and he died from

the heat rushing up from beneath.

MEXICO CITY, Nov. 5. (P-

Exclusive)—Stories of inhabitants fleeing from

a six-foot high lava stream pour-

ing from the volcano Santa Maria

with some of them dropping in

their tracks, asphyxiated by sul-

phur gas, to be swallowed up by the

molten rock were received today by

Guatemalan Charge D'Affaires

Julio Gomez Robles.

His dispatches from Guatemala

city said the inhabitants of Man-

teguapa and near-by towns were

alarmed by underground rumblings

on Saturday which were followed

by the eruption and earthquakes.

The lava stream swept over

the countryside, destroying every-

thing in its path and overtaking

the fleeing residents. The whole

volcanic zone of the depart-

ment of Suchitepequez suffered

from the effects.

Up to this afternoon fifty bodies

had been recovered but many more

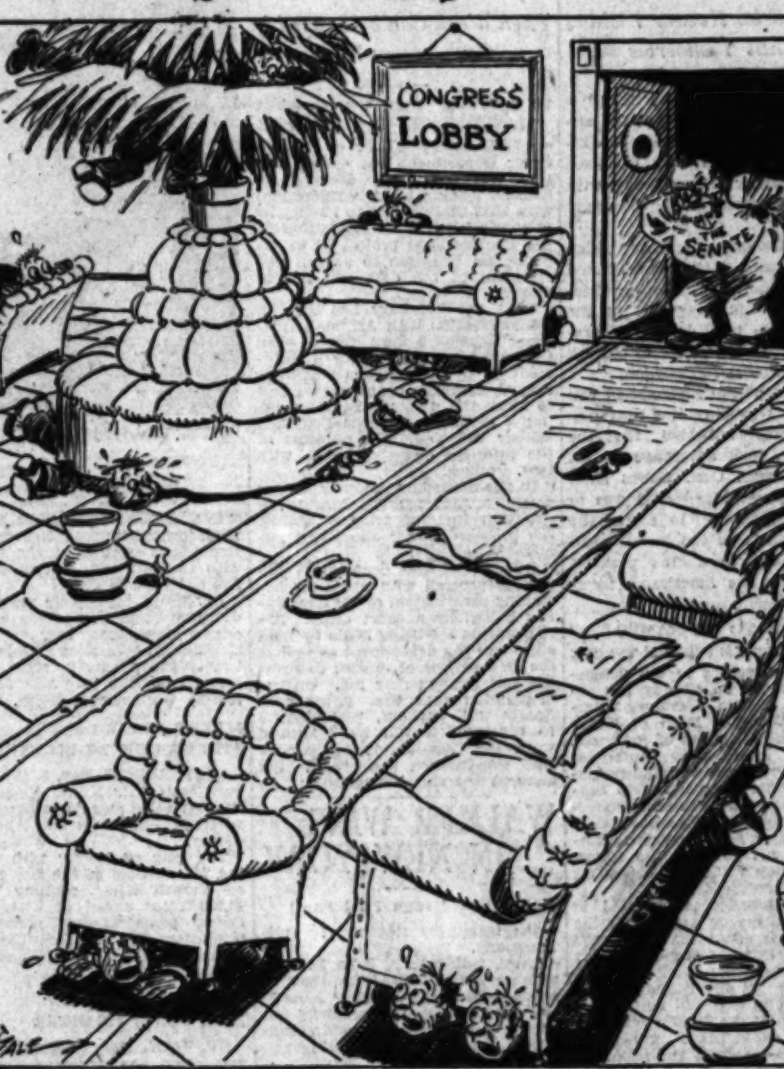

persons are believed to have died

and to have been cremated by the

molten rock.

BRITISH END RUSS RIFT

Diplomatic Ties to Be Resumed

House Vote Approves Move
of Labor Government;
Liberals Assist

Henderson Leads in Debate
That Marks Victory
for MacDonald

LONDON, Nov. 5. (P)—The House of Commons late tonight voted 304 to 199 for resumption of diplomatic relations with Soviet Russia after a long and somewhat acrimonious debate.

Earlier the House defeated by the same vote an amendment offered by former Prime Minister Stanley Baldwin depicting the "failure" of the new Labor government to maintain the conditions which the Prime Minister and Foreign Secretary had laid down for the resumption of diplomatic relations.

The vote of the House paves the way for restoration of the diplomatic ties severed in 1917 during the Premiership of Mr. Baldwin. The Anglo-Russian trade agreement was terminated at the same time. The break followed a raid on the London headquarters of Arcos, Ltd., the Anglo-Russian trading organization. It was asserted that espionage and propaganda had been carried out under guise of the trade organization.

STEPS TO FOLLOW

The next step toward resumption is an exchange of ambassadors, which is expected to follow quickly. Soon thereafter new negotiations will begin for the settlement of outstanding questions and probably including drafting of a new trade agreement.

The motion offered by Foreign Secretary Arthur Henderson was the first test of strength of the new Labor government, and in the voting its party had the support of 199 Liberal votes. It was supported by 199 Liberal votes. It was supported by 199 Liberal votes.

BACKED BY DOMINIONS

In the debate on the motion tonight Mr. Henderson said that no one dominion had expressed opposition to the policy which had been pursued, and that the replies received indicated that it is generally recognized the renewal of relations sooner or later was inevitable.

To charges of Mr. Baldwin that he had made a most humiliating surrender, the Secretary replied that the government did not intend to recognize the renewal of relations in any form at any time, and said that all of the dominions, except one whose views had not yet been received, had requested that the guarantee of no propaganda be made applicable to them.

CONSERVATIVES AID

The government in the voting even had the support of three Conservatives, including Lady Astor, the Virginia-born member from Plymouth.

In concluding the debate for the opposition Sir Austen Chamberlain, former Foreign Secretary, said, "The only thing that remains obscure to me at the end of this debate is who is it that is being fooled. Has the government been fooled by the Soviet government, or is it trying to fool the country?"

Parliamentary Undersecretary Dalton in reply said the government proposed to negotiate a new commercial treaty covering the matters in the treaty of 1924 and other matters which had since become suitable for embodiment in a treaty. He stated the government had obtained a pledge against propaganda and an agreement laying down procedure for dealing with a large number of outstanding questions.

American Gold Reaches Paris

CHERBOURG (France) Nov. 5. (P)—The first gold from the United States since the World War—\$3,000,000, in fifty-six kegs—was unloaded from the Berengaria today and taken by special car to the Paris bank of Lazard Freres.

He was taken ill while attending the Yale-Dartmouth football game.

COMMUNIST SENTENCED FOR DEMONSTRATION

LONDON, Nov. 5. (P)—Lewis Gopett, one of three men charged with participating in a Communist demonstration outside of the United States Embassy, October 27, last, today was fined \$2 of sixteen days imprisonment. In his testimony Gopett said the demonstration was from the International Class War Prisoners' Aid Society and that the crowd of the demonstrators at the Embassy was to deliver a protest against the sentencing of the Gastonia strikers, who had been convicted of killing an officer.

TESTIMONY IN HAMILTON CASE ENDS

Texas Lawyer's Trial for
Killing Son-in-Law Soon
to Be Given to Jury

WEATHERFORD (Tex.) Nov. 5. (P)—Testimony in the trial of R. H. Hamilton, Amarillo lawyer, for the slaying of his 21-year-old son-in-law, Tom Walton, Jr., ended today after the defendant had testified in rebuttal and the mother of Walton had taken the stand.

Less than two hours after Mrs. Grace Walton, clad in black, was told of her last few minutes with her son, Hamilton testified for the second time, denying Mrs. Walton's testimony.

Mrs. Walton said that the morning of the killing her son came to the Fourth Inn at Amarillo, where she was manager and placed a telephone call. In a weak voice she told of hearing Walton say: "Is Judea Hamilton? Is this Judea Hamilton?"

Then she said, her son left the inn and within half an hour she caught an Amarillo hotel bus and his body, pierced by four bullets fired at him in Hamilton's law office.

Hamilton positively denied that anyone ever had called his office and said, "This is Tom Walton."

As the State concluded its case it brought in Dallas a handwriting expert, W. A. Weaver, who examined letters Mrs. Hamilton purportedly sent her husband from Austin, telling him of threats Walton had made against him. Weaver said the envelopes were not addressed nor the letters written, in some instances, with the same pen or the same kind of ink.

District Judge Carter had not decided tonight how long he will allow for arguments.

WISCONSIN DEAF TO UNWRITTEN LAW PLEA

MADISON (Wis.) Nov. 5. (P)—The "unwritten law" justifying the slaying of a wife by a husband when she is found with another man has no place in Wisconsin jurisprudence, the State Supreme Court ruled today in refusing the appeal of Louis M. Payne, who was sentenced to twenty years for killing his wife.

TEXAS GUINAN RAPS WIVES

Night-Club Hostess Tells Chicago Women's
Gathering Just Why Husbands Stay Out Late

CHICAGO, Nov. 5. (Exclusive)—Texas Guinan, night-club queen, turned moralist, took several hundred Chicago women to task today for their omissions, chief among which Texas ranked the sin of taking husbands seriously.

A crowd of women which filled the ballroom of the Illinois Women's Athletic Club expectedly waited an hour before the blood and perfume of Texas, dressed in black velvet, in the room, burst in.

"Now, I don't know what you all came for," she said. "Curiosity, maybe. Maybe you really want to know why husbands stay out nights."

NO SHOCKS RECORDED

That was the subject of her lecture—"Why Husbands Stay Out Nights." She said she was qualified to speak. She had had three husbands, and she had been running night clubs in New York for eight years, moving occasionally by request, she said.

Turn she stopped wise-cracking. Any wives who came expecting to be shocked by Texas' revelations of her night life were disappointed. Some of them appeared a little uncomfortable for a time, as if they had been tricked into going to church.

"What do men want in the night?" she asked. "Do they want to hear about the servant question? Do they want to hear about bills? They have to pay them—that's enough."

"I tell you, that's what's made me a rich woman—wives who talk about gas bills and curtains. If you women would amuse your husbands when they come home they wouldn't slip away and pay a \$5 cover charge to get a little amusement."

Texas, the hard-boiled, then delivered a bit of gentle wisdom.

PRaise VOICED TO M'DONALD

American Attitude Called
Most Open-Hearted

Any Commitments Denied by
Prime Minister

LONDON, Nov. 5. (P)—Carefully reading word for word from a prepared statement, an unusual procedure for him, Prime Minister Ramsay MacDonald today told the House of Commons of the success of his mission to the United States and Canada. He received the warmest congratulations from Labor and Conservative and Liberal for his efforts on behalf of Anglo-American amity and naval disarmament.

Mr. MacDonald put the results of his conversations with President Hoover before the House in a brief speech. He lauded the open-mindedness and open-hearted way that he had been met by the President and by the American people and expressed the hope that the new relationship between the two nations, based on mutual understanding, will have far-reaching and beneficial effects.

BALDWIN LAUDS HIM

He said that such contingent questions as belligerent rights, fortified bases and so on were raised. A mutual agreement was made to examine them but no commitments were entered into.

With a warmth of feeling that moved the House deeply, former Premier Baldwin congratulated his successor on his success in a mission that he said, it always had been his ambition to undertake.

In adding the tribute of the Labor party, Mr. MacDonald said that George raised a storm of protest on the Labor benches by praising the Prime Minister to say whether he had discussed war duty with President Hoover or entered into commitments.

Commander J. M. Kenworthy, Labor, said that Lloyd George's denials were misleading, but Mr. MacDonald insisted on replying. He declared emphatically, that "the question of war duty was not discussed and assured the House that there had been no commitments on the other questions."

Lady Astor assured the members by assuring the Prime Minister that all the "cooler" elements of America who had been misled by his mission, Mr. MacDonald himself joined in the laughter.

PREPARATIONS MADE

He announced that all preparations are being made for the five-power naval conference in January.

The success of that conference is our next objective. Above and beyond a naval agreement it is our own desire to make it clear to every one that in our mutual relations the Paris pact of peace is a reality," he declared.

Mr. MacDonald remarked that although Winston Churchill is a member of the League of Nations, it is a policy of keeping aloof from Old World entanglements. England must remain loyal to its obligations contracted with the League of Nations.

"On neither side was there any attempt to change these facts, which were recognized and examined in all our discussions," he said.

American Charge d'Affaires Thornton followed the speech from the distinguished "strangers' gallery," which was crowded.

Warden Balks Prison Break

SANTA FE (N. M.) Nov. 5. (P)—Five prisoners of the New Mexico penitentiary were locked in their cells today by Warden Pat Dugan, who frustrated an attempt by the men to go over the wall.

Dugan found a number of knives and a saw and one of them had fashioned a ladder out of wire which could be used in the getaway.

CHICAGO, Nov. 5. (P)—Ann Livingston, divorcee, who sued Franklin Harding for breach of promise and won a judgment of \$25,000, is preparing to return to Tulsa, Okla., with a check from Harding as a settlement.

Miss Livingston's attorneys said she accepted less than \$25,000 in consideration of the dropping of an appeal by Harding, which would have kept the case in the courts for three or four years.

Murdered Pair Thought Victims of Robber Plot

KANSAS CITY, Nov. 5. (P)—Mrs. Minnie Hare, 45 years of age, and Jennie J. Barnwell, 55 years of age, a roomer in Mrs. Hare's home, were found dead from bullet wounds this afternoon at the home in Merriam Park, Kan., a suburb.

The house had been ransacked. Currency totaling \$3775 was pinned on the inside of the woman's clothing but a diamond ring valued at \$250 was missing.

Officers said they believe the couple had been murdered and the assailants frightened away before they had time to search the bodies.

DENVER VACCINATION ORDINANCE TO STAND

DENVER, Nov. 5. Burst of Speed Laid to Stock
Crash in New York

BADEN-BADEN (Germany) Nov. 5. (P)—Great credit is being given the American delegation to the conference on the Bank for International Settlements for the draft of a trust agreement which has been approved in principle by its plenary session.

The new draft which was presented has resulted in a more optimistic opinion in conference circles, such as has been lacking for the past fortnight.

"The American delegation deserves great credit for the splendid draft of the trust agreement," said Dr. Hjalmar Schacht, head of the German Reichsbank.

It is hoped that the conference may adjourn Saturday, in circles close to the conferees the rumor is persisting that the New York Stock Exchange situation has had something to do with the sudden burst of speed in the work here, in that Europe confidently expects the American market will be able to absorb German annuity bonds more easily "now that the stock speculation fever is broken."

A Test Every Man Past 40 Should Make

Medical authorities agree that 40 per cent of all men past middle age (many much younger) are afflicted with a disorder of the prostate gland. Aches in feet, legs and back, frequent nightly risings, weak palms are some of the signs—and now a member of the American Association for the Advancement of Science has written a remarkably interesting free book that tells of other symptoms and just what they mean. No longer should a man approaching or past the prime of life be content to regard these pains and conditions as inevitable signs of approaching age. Already more than 50,000 men have used the amazing method described in this book to restore their health and vigor—and to restore the prostate gland to its proper functioning. Arrange immediately for this book. Call in person if possible, otherwise mail your request to the Electro-Thermal Company, Dept. B-180, 203 Van Ness Bldg., Los Angeles—the concern that is distributing this book for the author. It will be sent to you absolutely free, without obligation. Simply send name and address. "I'm glad my money is SAFE"...

"BULLS" are trying to sell stocks at higher prices, "bears" are trying to buy stocks at lower prices, the Wall Street market is on the front page with the big headlines...

And thousands of owners of savings accounts in Security-First National Bank are saying to themselves, "I'm glad my money is safe."

There has been no fluctuation in pass books. There has been no wondering whether any dividends will be "passed" on savings accounts. Their owners know that January 1 they will be credited the same 4% which they have been paid for more than a quarter century. Nipponese Says His Nation Got Worst of It

Prof. Hsu Denies Credit for Peace to Tokio

KYOTO (Japan), Nov. 5. (AP)—An address by Yosuke Matsuoka, until recently vice-president of the South Manchurian Railway, defending Japan's Manchurian policy, and a rebuttal by Hsu Shu-hai, professor of international law at Yenching University, featured today's sessions of the Institute of Pacific Relations. Matsuoka asserted that Japan had negotiated a settlement with China of the Manchurian question after the Russo-Japanese war, assuming that China had been neutral and on the supposition that Japan had been defending Manchuria against Russia on China's behalf, so that the territory in question could be restored to Chinese sovereignty.

IMMENSE COST
The Japanese speaker said that if his country had known that a secret alliance existed between China and Russia against Japan during and at the close of the war in 1905, the island empire would have annexed all of South Manchuria. This, he asserted, would have made the fourth Manchurian question between China and Japan nonexistent today. Matsuoka said the war had cost Japan 200,000 lives and 2,000,000,000 yen (about \$1,000,000,000) on which his country still is paying. "Is China prepared to repay any part of that 2,000,000,000 yen?" he asked. "What Japan has received from China for saving Manchuria from Russia is zero minus 2,000,000,000 yen. Is that price too high?"

He stated that Japan's safety depends on Manchuria and asked whether China could meet the eastward movement of population from Russia.

ANSWER MADE
Prof. Hsu denied that Japan deserved all the credit for the peace, prosperity and increasing population of Manchuria. He insisted that Japan had strangled Chinese development there and had exacted an exorbitant price for what benefits she had conferred. Matsuoka, referring to the growing population of Manchuria, had asserted that Japan had encouraged and assisted Chinese migration, telling how many Shantungese had burned and cursed their Shantung homesteads and trekked to Manchuria seeking peace which had been denied to them among the bones of their ancestors.

Referring to Prof. Hsu's assertion that Japan had exacted an "exorbitant price" for developing Manchuria, Matsuoka said that his country had received Kwangtung and leased the territory of the South Manchurian Railway from Russia, not China. He denied that Japan selfishly is exploiting Manchuria.

Matsuoka asserted that after paying 6 per cent to Japanese shareholders, the railway is reinvesting all other profits for the further development of Manchuria.

Salaries of Tariff Workers Up for Questioning

Blaine Shows Four Got Huge Share of Two Funds

Witness Appears Today for Further Testimony

WASHINGTON, Nov. 5. (AP)—Records were produced today by the Senate Lobby Committee to show that \$77,594 of the \$209,585 received last year by the Southern Tariff Association and the American Taxpayers League was turned over to four employees of the organizations. The figures were read into the record by Senator Blaine, Republican, Wisconsin, during the examination of J. A. Arnold, vice-president and general manager of the tariff association and manager of the taxpayers league.

Arnold insisted that the figures do not represent the facts, asserting that the four employees, including himself, actually received only a regular salary and that most of the money went for organization work.

The examination became heated at times and once Arnold accused Blaine of ridiculing the work of the organizations instead of seeking information.

BLAINE CONFESSES
"I must confess that I am ridiculing the work," Blaine retorted, adding that he was going to show that contributions to the associations were used as a sucker list from which to obtain collections and that "a large portion went into your own pockets."

"That's not true," Arnold shot back.

The witness said he had made up out of his own pocket deficit of \$12,843 in the funds of the tariff association and the taxpayers league for the year ended August 31.

"They owe me that money," he said.

Figures read into the record by Blaine show collections for the taxpayers league during the period were \$106,416 and those of the tariff association, \$33,169, with disbursements of former \$189,976 and the latter \$63,485.

SALARIES DRAWN
Blaine's records show that Arnold received \$19,519 from the taxpayers league during the year ending August 31, and \$10,000 from the tariff association. They also show that Mrs. Ida Darden received \$11,144 from the taxpayers league and \$8004 from the tariff association. Vance Meuse \$12,416 from the taxpayers league and \$7193 from the tariff association, and W. P. Myrick \$14,678 from the taxpayers league and \$380 from the tariff association.

The witness said that Meuse at present in South Carolina, Myrick now in California and Mrs. Darden, now in Texas were employed as organizers and collectors. Sometimes they worked for the tariff association and sometimes for the taxpayers league, he said, explaining that the two organizations had joint headquarters in Washington. Arnold said his salary was \$10,000 a month, that of Meuse \$600 a month, Myrick \$500 a month and Mrs. Darden \$4000 a year.

He will appear before the committee again tomorrow.

COMMISSIONS DISCLOSED
At the outset of the session Senator Blaine read from a document which he said was entitled "An Agreement Between Meuse, Myrick and Darden." Arnold said the so-called agreement was "of no consequence," and that it never had gone into effect.

"The agreement" said Myrick and Meuse were to receive 40 per cent of all checks turned in by them, regardless of the amount, and that when \$100,000 was raised the three were to receive 10 per cent in addition.

A long list of contributors was read by Senator Blaine, which Arnold said seemed to be accurate.

"We get money wherever we can," he asserted. "We don't miss anybody."

Arnold was questioned regarding a list of the delegates to a meeting of the Tariff Association in Washington last June, which showed the association had paid out \$6381 to delegates from ten Southern States. Arnold said the list was correct and that the money had been expended to enable the delegates to come to Washington for the meeting.

GAVE PEANUT HELP
Arnold also testified that the associations had paid former Representative Mondell of Wyoming, \$700 for work he had done for them. Arnold said Mondell had appeared before the Tariff Commission in behalf of an increase in the duty on peanuts.

Senator Caraway of the committee read from a letter purported to have been written by J. E. Bell of San Bonito, Texas, asking if the association could do anything to help Senator-elect Vane of Pennsylvania, whose right to a Senate seat was in dispute.

Arnold said he did not recall the letter.

Live-stock Pool Gets Large Fund

WASHINGTON, Nov. 5. (AP)—The Federal Farm Board today authorized a line of credit of \$5,000,000 to the National Producers' Feeder Pool, a subsidiary of the National Live Stock Producers' Association. The loan was conditioned upon the National Live Stock Producers' Association with all of its subsidiaries becoming a part of a national live-stock marketing association, which now is being organized under Farm Board direction.

Russians May Dare Atlantic

NEW YORK, Nov. 5. (AP)—The four Russian aviators, members of the crew of the Land of the Soviets, which flew from Moscow to New York, have wired soviet officials for permission to fly across the Atlantic Ocean to England. They hope to leave in two weeks from Harbor Grace, N. F.

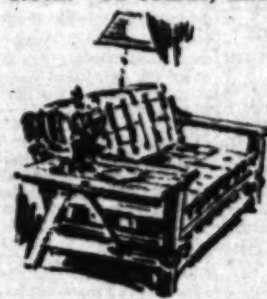

Let's talk about Barker Bros.' original creation...

MONTEREY

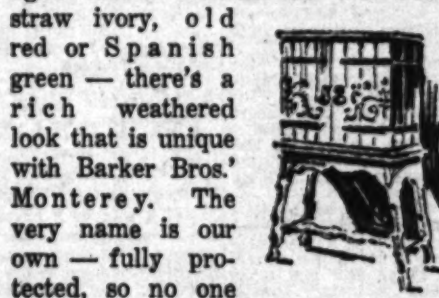

Chair, old wood, uncovered, \$53.50

So Barker Bros. decided to create a style that had the same ancestry as the Spanish-California houses. They studied old Spanish furniture. They found pieces from the days of the California missions. They analyzed modern Spanish houses to see just what was needed. The result was our Monterey Furniture. That was a year ago. It was a success at once. Every one came to see it. The news spread. Now we have hard work to keep it in stock. Of course, like everything that is good, and successful — it was copied at once. But all we ask of you is to go see the copies and then come here and look at the original.

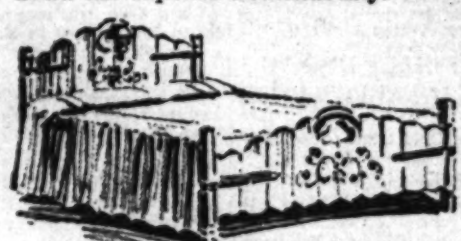

Sofa, old wood, uncovered, \$70

It is easy enough to get a piece and copy the dimensions line for line. But we ask you to look at the finish. At the risk of sounding like a patent medicine advertisement, we must say there is no substitute for Monterey. That mellow finish is the trick—Monterey pieces have a romantic flavor that in large measure is due to their lovely aged look. Whether in old wood, straw ivory, old red or Spanish green — there's a rich weathered look that is unique with Barker Bros.' Monterey. The very name is our own — fully protected, so no one else can use it. Of course, price has had a lot to do with the success of Monterey. All the people who aspired to real Spanish furniture before the days of Monterey and had to go out and have it specially made discovered that it ran into money. Of course, we make Monterey in such large quantities that it cuts down the expense tremendously.

Radio, old wood, \$210

We started with living room pieces—the public wouldn't let us stop. "Make us furniture for the whole house," they

urged. And so we made bedroom, dining room, and patio furniture all in Monterey style. We made it for small homes and then the people who had very large rooms asked for pieces of larger proportions. So now we have thirty-eight living room pieces; twenty-five dining room pieces; twelve bedroom pieces and fifteen patio pieces in Monterey style. And when you remember that these all come in the five Monterey finishes: Blue, old wood, Spanish green, straw ivory and old red—you can see why no two Monterey homes look alike.

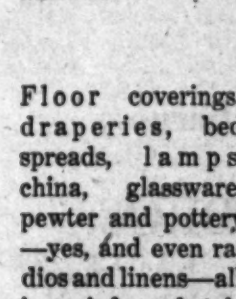

Table, old wood, \$32.50

We're so used to thinking in terms of Monterey we collected all the accessories to complete harmonious rooms. In the Monterey displays on the floor you can see the ensemble combinations.

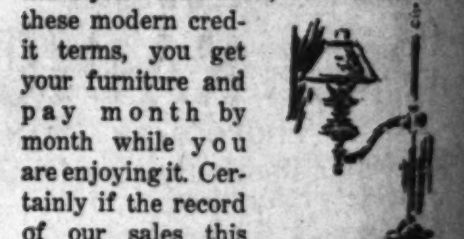

Desk, \$12.75; Stool, \$3.95

Floor coverings, draperies, bed spreads, lamps, china, glassware, pewter and pottery — yes, and even radios and linens—all in an informal style just suited to Monterey. If you're looking at Monterey with a longing eye, there is no need to wait... for your old furniture can just be turned in through Barker Bros.' Exchange Service and help pay for this real California style. And then, of course, with these modern credit terms, you get your furniture and pay month by month while you are enjoying it. Certainly if the record of our sales this year means anything, Californians are enjoying Monterey. We made it just for California, but even New England has succumbed, and Monterey furnished homes are scattered all across the country.

FIFTY NATIONS MEET AT PARIS

Equality for Foreigners Being Considered

Session Under Auspices of Nations' League

Treaty Draft Based Upon Approved Principles

PARIS, Nov. 5. (AP)—The representatives of fifty nations met here today to consider the text of a treaty by which discriminations against foreigners established in business in various countries might be abolished.

The conference, held under the auspices of the League of Nations and presided over by Albert Devesse of Belgium, opened with a general discussion of the situation of foreigners.

The general trend of the discussions was that a treaty is necessary, though some of the delegates maintained that complete understanding on such questions could not be attained without bilateral agreements.

Guillermo De Blanes, Cuban jurist, called attention to the theory that if foreigners enjoy all the privileges of citizens they ought not to expect to have the privilege of choosing international jurisdictions to decide contentions that might arise between them and nationals of the countries where they are doing business.

CONVENTION DRAFTED

George Gordon, First Secretary of the American Embassy, represented the United States, sitting at the conference table in a "consultative capacity."

The draft convention, the fruit of many years of study and based on principles already approved by many governments, deals primarily with the status of persons or corporate entities of one country doing business in another. Its chief purpose is to obtain the same treatment for foreigners as is assured to citizens.

The League's impulse in seeking such an agreement arose from the article in its covenant which provides that members shall "make provision to secure and maintain freedom of communications and of transit and equitable treatment for the commerce of members of the League."

Guarantees contemplated in the proposed form which the negotiators will consider apply not only to the exercise of all economic activities but also to civil and legal rights, to the acquisition, preservation and transmission of property and to charges of a fiscal character.

EXCEPTIONS NOTED

The treaty would be open for signature by the United States or by any power not a member of the League or not, "to which the Council of the League of Nations may have communicated a copy for this purpose."

Six months after its ratification by any two states the treaty would come into force and would be effective thereafter in case of each contracting state six months after ratification by that state. Denunciation is provided for after one year's notification.

Several possible exceptions to the policy of "equal treatment" are recognized in the draft convention. Each signatory would have the right to restrict the activities of lawyers, notaries, stock brokers, "and other similar professions or offices as well as any other professions or offices which it may be desirable, in the public interest, to reserve for nationals."

Exploitation of minerals and hydraulic power also may be reserved for a signatory's own nationals.

NOTED GENEALOGIST DIES

MANCHESTER (N. H.) Nov. 5. (AP)—William Brewster Miller, 79 years of age, of Brooklyn, N. Y., a retired educator, died here yesterday. He was a noted genealogist and the founder of the League of the Red, White and Blue, a children's patriotic organization.

SENATE TARIFF ACTION SPEEDED

Limitations Placed on Time Allotted Speakers

Pottery and Chinaware Duty Increase Eliminated

Cups, Saucers and Plates Subject for Debate

WASHINGTON, Nov. 5. (AP)—After reaching an agreement to accelerate action on the tariff bill by limiting the time individual Senators may talk on amendments, the Senate today proceeded with little ado to eliminate proposed increases in duties on pottery and chinaware around which a stiff dispute had been promised.

Earlier a move to hasten debate by restricting discussion beginning tomorrow had failed, when Senator Dill, Democrat, Washington, objected to such a request by Chairman Smoot of the Finance Committee. He contended this struck at the very root of the time-honored practice of permitting free and open discussion in the Senate.

Later, however, Smoot proposed that each Senator be limited to talk ten minutes on each amendment to the pending rate schedule, that embracing earthenware, earthenware and glassware. Senator Dill was not present when this motion was put and it carried without discussion.

WANTS TARIFF DELAY

Senator Hiram, Democrat, South Carolina, offered a resolution to lay the tariff bill aside until after the position of the Vire case in the regular December session, but there were little indications it would be brought up. Republican leaders expressed the view that the tariff will be kept before the Senate without taking an adjournment before December 2, when the regular session opens.

After failing to hold their lines on two previous votes on committee amendments proposing reductions in duties on china clay and crude silica, the Democrats and Republican independents joined again in helping to eliminate the committee recommendations for higher levies on cheap classes of pottery and chinaware and in approving committee proposals wiping out House increases.

CUPS AND SAUCERS

After accepting, 33 to 21, the committee's proposal to strike out the House rate adding 10 cents a dozen pieces to the existing duties of 45 and 50 per cent ad valorem, respectively, on decorated earthenware and crockery ware, the Senate, without record votes, restored existing rates on these and china and porcelain products.

This rejected committee amendments proposing to add 10 cents a dozen pieces to the ad valorem rates now in effect on earthenware and chinaware cups, saucers and plates valued at not more than 50 cents a dozen.

Senators Norris, Republican Independent, Nebraska, and Harrison, Democrat, Mississippi, opposed the higher duties proposed to be levied on the cheaper grades of imported pottery and china products on the ground that they will affect persons who can not afford to buy higher-priced pottery and china.

SAYS PLANTS CLOSED

Senator Reed, Republican, Pennsylvania, arguing for the higher tariffs, said the competition is keen in the low-priced ware and it adds 10 cents a dozen to the costlier goods would have provided no additional protection to speak of.

Seven concerns in East Liverpool, O., have closed down because of increased imports, said Senator Fees, Republican, Ohio. He agreed with Senator Reed that imports of these goods have increased 30 per cent since 1923 while domestic production has declined 28 per cent.

Senator Cleveland of New York was the only Democrat to sponsor the higher rates.

CRITICS OF SOVIET PLAN THREATENED

Bolshevik Organ Warns Former Leaders of Exile for Speaking Minds

MOSCOW, Nov. 5. (AP)—The official organ Ivestia today warns Nikolai Bucharin and other members of the Right Wing opposition in the Communist party that unless they acknowledge their "mistake" and recognize that the government is pursuing the correct policy in its economic and agricultural plans they will meet the same fate as the exiled Leon Trotsky.

Ivestia declares that the wonderful results of the first year of the five-year industrialization plan prove the members of the Right Wing wrong. It adds that only grouping of Russia's farms on a great scale can solve the country's agricultural and economic problems.

Nikolai Bucharin formerly was editor-in-chief of Pravda, important Moscow daily, and has held posts as member of the Communist Executive and member of the Presidium Council of Supreme Economy. He generally has been associated with such other "Rightists" as Michael Tomsky and Alexei Rykov. There have been insistent reports of late of his loss of standing with the present all-powerful soviet group headed by Josef Stalin.

SIX STATE ROAD CONTRACTS LET

San Gabriel Bridge Near

Azusa to Benefit

San Diego County Gets Span

Over San Luis Rey

Award of \$239,792 Made on

Desert Highway

SACRAMENTO, Nov. 5. (AP)—The

State Highway Division awarded to-

day six contracts for road work call-

ing for the total expenditure of

\$797,029.85. The projects and bid-

ders to whom the contracts were

awarded are as follows:

Los Angeles county—Bridge across

San Gabriel River on Pothill Boul-

levard near Azusa, to be widened to a

single roadway width of forty-two

feet, and a five-foot sidewalk on the

south side. This project is to relieve

the "bottle neck" at this point, re-

sulting from the recent widening

of the adjoining pavement to forty

feet. It lies on the main road be-

tween Los Angeles and San Bernar-

dine. The low bid of Johnston

Construction Company of Los An-

geles was declared irregular when

it was opened November 28, and all

bids were rejected and work re-

advertised. The low bidder on the

second call is the Johnston Con-

struction Company, price \$88,094.95.

SAN LUIS BRIDGE

San Diego county—Bridge across

the San Luis Rey River near Ocean-

side. Bridge is to have three 265-

foot steel deck truss spans and two

sixty-foot steel stringer spans on

concrete piers and abutments. The

bridge is to have a clear width of

roadway of forty feet and a five-

foot sidewalk on each side. The

approaches are to be graded and

paved with Portland cement con-

crete and bituminous macadam.

Adjoining this project on the

north is another project recently

completed. Undulations following

the desert surface will be flattened

out.

Kern county—The Los Angeles

Deconquered Granite Company of

Los Angeles, bidding \$30,470.40, was

awarded a contract for surfacing

with oil-treated crushed gravel a

twenty-foot roadway between Pen-

land and San Emidio Road, a dis-

tance of 12.2 miles. This project is

on the secondary route from the

valley south of Bakersfield to the

coast at Santa Maria. The project

lies on the flat valley floor and

the traffic has a considerable

amount of heavy trucking to the

west side of the oil fields.

IN SHASTA COUNTY

Shasta county—Grier & Taylor of

Oakland were awarded a \$50,441.80

contract for surfacing with untre-

ated crushed gravel twenty-six miles

between Baird and Lamona on the

Pacific Highway. Commencing at

thirty miles north of Redding in

the Sacramento River Canyon. This

project also includes stock piling

screening for future armor coat.

Mendocino county—Hemstreet &

Bell of Marysville were awarded a

\$27,230 contract for surfacing with

untreated crushed gravel an eight-

een-foot wide roadway and stock

piling screens for future bituminous

surface treatment for a distance of

8.7 miles between a point two miles

south of Arnold and the Sherwood-

Laytonville road. This project is

on the Redwood Highway and is lo-

cated about 140 miles north of San-

salito.

CHIEFS TO MEET IN CRIME STUDY

Conference Will be Held at
University of Chicago

Recording System Main
Topic of Discussion

Police Heads from Many
Cities Will Attend

CHICAGO, Nov. 5. (Exclusive)—Police chiefs from every section of the country will gather at the University of Chicago next Monday for a two-day conference on crime recording. Thirty chiefs, a dozen recording experts from police headquarters in ten cities and a group of authorities on police methods have already accepted invitation. It was announced at the university today. More than 100 are expected to attend the sessions.
Chief August Vollmer of Berkeley, Cal., former president of the International Association of Chiefs of Police and now professor of police administration at the University of Chicago, has organized the conference primarily to instruct police officials in the new scientific and uniform methods of crime recording. According to Prof. Vollmer, this conference will be the first meeting of police chiefs to discuss police problems at any university and will be the first of a series proposed by the University of Chicago.

DETROIT CHIEF TO SPEAK
Commissioner William Russell has offered the co-operation of the Chicago Police Department and will himself address one of the sessions. Chief Rutledge of Detroit and Bruce Smith of the Institute of Public Administration, who is now directing a survey of the Chicago police, are co-operating in the organization of the conference and will be among the speakers.
Among the police departments which will be represented are those of Boston, Los Angeles, Portland, St. Louis, Detroit, New Orleans, Washington, Milwaukee, Pittsburgh, Rochester, Buffalo and Minneapolis. There will be eleven Indiana chiefs. Col. C. O. Sherrill, City Manager of Cincinnati, has accepted an invitation to participate, and Dr. L. D. Upson of the Bureau of Governmental Research in Detroit, also will attend.

CRIME FIGURES LACKING
"No one in America can speak authoritatively on the crime situation because no one has been able to get accurate figures," Prof. Vollmer said today. "A thorough and systematic method of recording and reporting crimes has been worked out by a committee of the association, and is now being adopted in many departments. The new method provides classification schemes which will standardize the data."
"What is lacking in one State may under the present system of reporting be burglary in another. At this conference we hope to demonstrate the advantage of the new system. How can we ever take effective steps to control crime until we have accurate information about it?"

Angeleno Pair Thought Elopers

SEATTLE, Nov. 5. (AP)—Descriptions of two youthful sweethearts, reported by their parents to have eloped from here while the two families were driving back to Los Angeles homes, were broadcast throughout the Northwest today by Seattle police.
Robert White, 20 years of age, and Mary Stuart, 18, the supposed elopers, disappeared from a tourist camp here where the two families were resting, and at the same time one of the cars, belonging to the boy's mother, was missing. Mrs. Stuart believes the pair headed for Spokane or Portland to be married before returning here.

SPECKELS WANTS ANNEXATION OF CUBA

WASHINGTON, Nov. 5. (AP)—Rudolph Speckels, independent sugar refiner of New York and San Francisco, today issued a prepared statement advocating ultimate annexation of Cuba by the United States as the "inevitable" solution of the problem of the country's sugar supply. Saying the status of the Philippines is far from settled and that transportation of sugar across the Pacific Ocean in time of war would be impossible, Speckels insisted the United States "should obtain exclusive control of a sugar supply adequate for the nation's needs."

REVOLT INSURANCE BARRED BY MEXICO

MEXICO CITY, Nov. 5. (AP)—The Department of Industry, Commerce and Labor today revoked permission of insurance companies to issue policies to cover damage sustained in revolution, coup d'etat, or strikes, on the ground that insurance agents spread alarming rumors in order to sell policies and which resulted to Mexico's detriment abroad. Eleven foreign insurance companies are named in the department's order as having enjoyed this privilege, which was granted first in 1927.

UNITED STATES CHIEF BRITISH COMPETITOR

LONDON, Nov. 5. (AP)—The United States is the chief competitor of Britain for Canadian markets, J. H. Thomas, Lord Privy Seal, said in the House of Commons today. Sir Frederick Hall had asked what countries the Minister had found to be the keenest, particularly to iron and steel products. Sir Frederick further asked whether the ability of these competitors to undercut British prices was due to any considerable extent to inferior labor conditions in the iron and steel industries.

SHEEP PERISH IN FIRE
ST. JOSEPH (Mo.) Nov. 5. (AP)—Approximately 1500 sheep perished in a fire of undetermined origin, which destroyed sheep pens at the stockyards in South St. Joseph yesterday. The damage is estimated at between \$60,000 and \$70,000.

SENORITAS "TALKIE" DUPES

Bay City Police Say Latin-American Girls Victims
of Man Held in Quiz on Fake Film School

SAN FRANCISCO, Nov. 5. (Exclusive)—Lured by the promise of lucrative positions in the "talkies" scores of pretty girls from Central and South America have been swindled of thousands of dollars through a fake motion-picture school operated by Frederick M. McLemore, 28 years of age, it was charged by police today as they arrested McLemore. He was booked at the city prison for a down payment of \$200 and on a charge of operating an employment bureau without a license, but detectives who arrested him said more serious charges will be filed as soon as they have completed their investigations.

HIGH-SOUNDING TITLES
McLemore, who was arrested in a suite at a downtown hotel, where he maintained offices, gave himself the high-sounding titles of president and general manager of the Continental Film Textbook Corporation and chairman of the board of the Spanish-American Sonofilm Company. Both are fictitious concerns, according to police.
The arrest came about through information given by Miss Adela Bernades, 21-year-old daughter of a wealthy family of Granada, Nicaragua, who lives here while finishing her education in the United States. It was among girls of wealthy Central and South American families such as Miss Bernades that McLemore selected his victims, according to Detective Lieutenant Heitkorn and Detective Sergeant Harris of the police bureau detail.

TWO PROPOSITIONS
Through his two corporations he had two propositions for his prospective pupils, according to police. One was to pay \$1000 down and \$4000 within six months for a course. To those taking this course he guaranteed a steady position at a minimum salary of \$75 a week, police said.

STUDENT SURRENDERS
ON BOOTLEG CHARGE

ANN ARBOR (Mich.) Nov. 5. (AP)—Charles Fitzpatrick of Flushing, N. Y., 21-year-old senior in the education school of the University of Michigan, surrendered to Chief of Police O'Brien today to face a charge of possession of liquor growing out of a raid on Fletcher Hall, a university dormitory. Fitzpatrick was released on bail of \$2500.

BISHOP BOARD MEETS FRIDAY

Methodist Prelates to Open
Session in San Francisco

Semiannual Gathering to
Form Mission Program

Many Church Notables from
East Will Attend

SAN FRANCISCO, Nov. 5. (AP)—Members of the board of bishops of the Methodist Episcopal church here will hold their semiannual session here from Friday the 8th inst. to the following Wednesday, the 13th inst., inclusive, with Bishop Charles Wesley Burns, resident bishop of the San Francisco area, as host. Twenty-eight clergymen, with their wives, are expected to come here from all parts of the United States. Twice each year the bishops meet to canvass the administrative work of the church and to formulate its missionary and educational program for the immediate future.
The session will open with a banquet at which Bishop Burns is to welcome his colleagues to California. Bishop Edgar Blake of Indianapolis will respond.

Bishop Francis J. McConnell of New York City, president of the Federal Council of Churches of Christ in America, is to address the Communion Club at Friday noon. The bishops are to consecrate next Sunday a new temple, constructed in connection with the William Taylor Hotel at McAllister and Leavenworth streets. The capella choir of the College of the Pacific at Stockton is to sing. Pupils of the larger Methodist churches of Northern California will be occupied by some of the visiting bishops on that day.

Fruit and Vegetable Market
Sets New Record

Total of 184,225 Carloads
Shipped in 1928

Output Almost Takes Care of
Two Huge Markets

By a "Times" Staff Correspondent
WASHINGTON, Nov. 5. (Exclusive)—California produced nearly 31 per cent of the fruit and vegetables marketed in all sixty-six of the major produce markets throughout the country in 1928, according to figures issued today by the Bureau of Railway Economics, based on a survey of the car loadings and unloadings for that year.
The Golden State was far in the lead of fruit and vegetable producing States in that year, shipping a total of 184,225 carloads. Florida, the nearest competitor, shipped only 87,365 carloads in the same year, and New York, third on the list, shipped 53,861 carloads.

California's fruit and vegetable production, not consumed in the State, was sufficient to supply the largest markets in the country and almost to meet the combined demands of the two largest markets, New York and Chicago. New York City consumed 125,500 carloads of fruit and vegetables in 1928 and Chicago 64,410 carloads, making the total for the two great markets 189,910, or only 5885 carloads more than California shipped during the year. Only two other States in addition to California, shipped fruit and vegetables to all sixty-six of the major produce markets in 1928. They were Arizona and Washington.

QUALITY so fine that
half the world doesn't realize that Buick
is priced so low

It is an impressive fact that men and women are buying from two to five times as many new Buicks as any other car priced above \$1200.

Moreover, during August and September, Buick monopolized its market to such a degree that it won 41% of the total sales of the 15 makes of cars in its price class.

And yet this marked preference for Buick would be still greater if all motorists realized that they can obtain this magnificent new Buick at such remarkably low prices.

Six of the fourteen luxurious Buick body types may be purchased for less than \$1300, f.o.b. factory—simply because of the manufacturing economies resulting from Buick's tremendous sales leadership in the fine car field.

Certainly, only Buick volume production could make possible prices so low. For these are Buicks through and through—built with the finish and precision for which Buick is world-famous—and endowed with the full array of Buick quality features.

Here are Buick's new and surpassingly beautiful Bodies by Fisher. Here is the masterly Buick Valve-in-Head engine—most powerful engine of its size in the world. Here are Buick's new Controlled Servo Enclosed Mechanical Brakes—the new Buick steering gear—new Road Shock Eliminator—and Buick's new, longer rear springs with Lovejoy Duodraulic Shock Absorbers. Here are all of the features which have enabled Buick to win the greatest measure of public preference attained by any automobile in any price class.

The new Buick, with these features, will introduce you to new and unequalled performance, driving ease, riding comfort and reliability on any day you put it to the test. And yet six Buick models are offered at the price of cars which motorists never think of comparing with Buick!

Visit our showroom. Bring your present car. Learn how easily you can obtain one of these new Buicks. All are available on the extremely liberal General Motors Time Payment Plan.

In addition to these lower priced models, Buick offers eight other distinguished body types, representing the ultimate in luxury, and priced from \$1465 to \$1995, f.o.b. factory.

HANNA RUMORED TO GET RED HAT

San Francisco Archbishop Favored Due to Age

Consistory Expected to be Called in January

Pope at Solemn Obsequies for Eight Cardinals

(Copyright, 1929, Chicago Tribune.) ROME, Nov. 5. (Exclusive)—Solemn obsequies for eight cardinals who died since last November were conducted today amidst the unveiled beauties of the Sistine Chapel in the presence of the Pope, nineteen cardinals, Vatican dignitaries, members of the diplomatic corps, the Order of Malta and a brilliant representation of the so-called Black Roman aristocracy. It now is apparent that a consistory, at which some five or six at least of the thirteen vacancies in the college of cardinals will be filled, is to be called in January. That one red hat will go to a North American prelate seems safe to predict, and one to a South American prelate. Archbishop Michael J. Curley of Baltimore and Edward J. Hanna of San Francisco are the two most mentioned in well-informed circles of the Vatican, with Archbishop Hanna being favored because of his age.

TOWER OF BABEL RAISED
A "fair idea of what the Tower of Babel might have been like was given at the annual session of Polytechnic Academy, made up of graduates of the College for the Propagation of Faith, one of the strangest spectacles on the colorful calendar of events here. In the presence of Pope Pius XI and the Cardinal and Diplomatic Corps, members of the academy delivered themselves of compositions in at least twenty-five different tongues.

ADDRESSES DULL
After the opening speech in Latin came a series of learned addresses in Sanskrit, Malabar, Hebrew, Chaldean, Syrian, Japanese, Chinese, Siamese and a few others. Then after singing the Exultate Deo Palestine followed more speeches in Latin, Greek, Gaelic, Norwegian, Dutch, German, English, French, Polish, Serb, Spanish, Rumanian, Portuguese, Magyar and several others so obscure that even the professors had difficulty in making out what they were. A colored slumulus from Jamaica closed the ceremonies in Italian. All the addresses were rather dull, though the one in Latin won the rapid attention of the gathering and received prolonged applause. Pope Pius expressed his pleasure that God has glorified all these tongues. He recalled the Babel incident when to punish the human pride God originated the confusion of tongues and his exhortation to the Apostles to go forth and preach the Gospel to all the world. He said he hopes servants of God, all the young graduates of the academy will be able to put in at least fifty years' fertile labor for the church.

HONEYMOON PAID FOR BY ROBBERIES

Bride Tells of Hold-ups on Trip to St. Louis from Seattle in Stolen Cars

ST. LOUIS, Nov. 5. (AP)—A six-weeks' trip from Seattle to St. Louis and a wedding and the start of a honeymoon, all financed by robberies, was described today to police by Mrs. Margaret Reinertson Swift, 18-year-old bride of William E. Swift, confessed robber. Both are held in jail. Mrs. Swift told police, they said, that she and Swift were married here last Wednesday, the day after he held up a drug store here and obtained \$87 to finance the wedding. She said she was the daughter of Hence Reinertson, Seattle contractor. She said she met Swift at a dance after which they started out to see the country. At Salt Lake City, she said, Swift committed two hold-ups. At Denver four robberies and at Omaha he robbed a drug store. In stolen automobiles, she said, they proceeded to Chicago.

FOURTH LARGEST IN THE NATION... RESOURCES OVER \$6 MILLION DOLLARS

Announcing A Marked Reduction in cost of REAL ESTATE FINANCING

This is one of the most important announcements ever made by a building and loan association in this State, and is of vital interest to California owners of residential and income property

Immediate refinancing will bring you these advantages

If you are paying high interest on your present loan, or it is otherwise unsatisfactory, immediate refinancing, by the Underwritten Loan Plan at the new reduced rates, will accomplish these worth while things for you.

1. It will reduce your monthly payments.
2. It will reduce your interest charges.
3. It will place a low interest long term note on your property and therefore make it more salable.
4. It will provide a loan of 65% to 75% of the sound market value of your property.

Therefore, if your property carries a second mortgage that has been partly paid down, you can probably do away with it by arranging one first-lien Underwritten Loan in place of your present first and second mortgages. Thus your saving will be especially large and you will pay on but one loan instead of two.

Sound Financing Principle

The Underwritten Loan adapts to the needs of the average property owner the sound financing principle employed in arranging long term financing by municipalities, corporations and other owners of large real properties.

Here is the vital distinction between the Underwritten Loan and other real estate loans:

Pacific States Savings and Loan Company in making these loans separates the cost of money (interest) from the cost of service, that is, it lends money on well located property on a 6% note, which is the prevailing rate that it pays on savings. It charges, in addition to interest, an underwriting fee to cover its bookkeeping, collection, general overhead, risk and profit.

Note in the 6% charts on the right that the underwriting fee averages as low as 40 cents per month per \$1000, indicative of the efficiency and economy of Pacific States Savings' methods and the benefit accruing to the borrower through its large volume.

As an alternative, we offer to the borrower the opportunity to finance on a 7% note, under which the underwriting fee is proportionately decreased, averaging as low as 12 cents per month per \$1000, as will be seen by a study of the 7% charts.

The underwriting fee can be included in the loan and thus its payment spread over the entire term of the loan.

PACIFIC STATES SAVINGS AND LOAN COMPANY, firmly committed to the constructive service of California, has long believed that the interest rates charged property owners by the building and loan associations of California are not in keeping with the stable and prosperous conditions of this state. It has felt that California building and loan associations can render their full measure of service to their communities only if loan rates are reduced to a point comparable with those obtaining in states where building and loan associations accomplish the full purpose for which these institutions were conceived.

In line with this belief, Pacific States Savings first presented the Underwritten Loan Plan 18 months ago—and made a reduction in Underwritten Loan rates last December.

Now our resources, in excess of \$6 million dollars, and the greatest loan volume in our field, have resulted in a reduction in our operating costs. It therefore becomes possible for us to realize our desire to lead the building and loan associations of the State in a move that will prove of vast benefit to property owners.

Therefore, effective as of today, we announce radically reduced rates on all Underwritten Loans. These new rates are the lowest ever quoted in our history, and, to the best of our knowledge, provide real estate financing at the lowest cost ever offered by a California building and loan association.

At the same time these attractive rates will benefit this institution by bringing to it the highest class of real estate loan security offered to building and loan associations.

How to Save \$1000 On a \$10,000 Loan

The following illustrates the economy of these new rates as compared with the old rates charged by Pacific States Savings before it introduced the Underwritten Loan Plan, and which still prevail with most California building and loan associations.

Under the prevailing rate of \$12.30 per month to pay off \$1,000 in 120 months, a \$10,000 loan would require monthly payments of \$123.

Under Pacific States Savings' new rates, a borrower desiring to obtain \$10,000 will negotiate a 6% note of \$10,526.32 which includes the underwriting fee. His monthly payment of \$11.10 per \$1,000 on this amount will aggregate \$116.83 per month, paying off the entire loan in 120 months including principal, interest and underwriting fee.

This monthly payment of \$116.83 for a \$10,000 loan as compared to the prevailing building and loan rate of \$123.00 per month for a \$10,000 loan, affords a monthly saving of \$6.17 over the old rate.

This \$6.17 a month, if placed in Pacific States Savings and allowed to accumulate at 6% compounded semi-annually will total \$1,010.48 by the time the loan is paid.

How to Arrange Immediate Financing

Refinancing of your property at these new low rates is simple. Come to the nearest Pacific States Savings office and make out a loan application. A prompt appraisal will be made of your property, for which no charge will be made unless the loan is granted.

If you should decide to refinance, our loan officials will save you time and trouble by relieving you of all possible details in connection with the retirement of your present loan or loans, and the substitution of an Underwritten Loan at a lower rate.

We shall be glad to consider Underwritten Loans on well located residential and income property in cities served by Pacific States Savings offices and in selected districts and suburbs contiguous thereto.

Applications will be Considered in the Order Received

We have large sums available for immediate advances. All applications will be considered in the order received.

Since an unusually heavy loan demand will result from this announcement of reduced rates, it is suggested that those desiring prompt service should present their application at once.

If it is inconvenient to call, a mail or telephone request will bring you a booklet completely descriptive of the Underwritten Loan.

*Calculated on a 6% loan for 120 months as shown in 6% chart.

BARKER BROS.
SEVENTH STREET, Flower and Figures

To Mr. Santa Claus
from a very smart "Wee modern"

Dear Mr. Santa Claus
It isn't too early to start thinking about Christmas and what we'd like to find around our tree when we romp downstairs so very early Christmas morning. Could you arrange to select our gifts from the things you sent to Barker Bros., because even if we're very young we know that they have quite the last word in playthings for our generation.

The Youngest Set

In answer to this charming letter Barker Bros. would like to say that they are prepared with the merriest, newest and most fun-inspiring gifts imaginable. Dainty dolls, sturdy trucks, speedy autos and aeroplanes and all those other things "wee moderns" love.

The athletic young dolls shown come from Italy and are sure to delight the members of the youngest generation. The boxer is \$18.50, the golfer \$12.50, the young lady is \$18.50.

ANOTHER QUIZ FOR PASADENA

Second Grand Jury Inquiry Looms in Crown City

Court Clerk Suspended as Outcome of Audit

Asserted Shortage Said to be About \$4500

PASADENA, Nov. 5.—With the temporary suspension today of Court Clerk Frank Freytag following the discovery of an apparent shortage of \$4500 in the local Police Court funds, this city is faced with its second grand jury investigation of municipal affairs this year. The first investigation dealt with alleged irregularities in the city engineering department and resulted in the arrest of four city employees and two contractors, now on trial in Superior Court.

An audit of Freytag's records over a four-year period, said by City Manager R. V. Orison to have revealed the asserted shortage. Orison asserted that the new investigation will undoubtedly go to the grand jury.

Following his suspension, Freytag asserted that he is innocent of any wrongdoing and will welcome an opportunity to explain any apparent irregularities to Dist. Atty. Burton Freytag.

"I do not intend to set foot outside of Pasadena until my name has been cleared," he declared. "I do not know why I have been suspended, but you may be sure that I shall remain right here."

The court clerk asked that his accounts be audited last July, but declined to reveal his reasons for withholding his own work to be checked. His first intimation that irregularities had been discovered came when his salary check was withheld this month.

Freytag's friends called attention to the fact that it would be difficult to change him with the disappearance of any ball funds in view of the existence of a check for the same in his cash was held. The asserted discrepancies were discovered by Rollin K. Anderson, clerk in the city controller's office.

The investigation was made by comparing all bills with court records and with records in the Controller's office.

Freytag took office in 1925, coming here from St. Joseph, Mo., where his family was well known. During recent years he has made repeated attempts to obtain added equipment for keeping his records and cash, his request for an independent safe having been denied on the ground that no funds were available.

Alhambra May Ban Wine Tonic

ALHAMBRA, Nov. 5.—The first gun in the offensive against the sale of wine tonics here was fired today by the City Commission, when that body gave first reading to an ordinance banning the sale of tonics with more than one-half of 1 per cent alcoholic content. The ordinance will be presented for final approval on the 19th inst.

In the provisions of the proposed new law drafted by City Attorney R. D. Wickham, it will be unlawful to sell or give away any wine tonic with more than one-half of 1 per cent alcohol and violation will be a misdemeanor punishable by a fine of \$500 or a six-month jail sentence.

The passage of an ordinance to regulate the sale of wine tonics has been under consideration by the commission for several weeks. It was first proposed by City Commissioner W. W. Nisum.

Dinner Given for Dead Hero

GLENDORA, Nov. 5.—In memory of his son, J. Frank Gard, who was killed in action in the Argonne, just six days before the armistice was signed, E. B. Gard gave his annual banquet and entertainment to Legionnaires, with their wives and sweethearts, tonight at the Masonic Temple.

Honoring the departed soldier, who was the only Glendora boy killed during the war, Legion men at the formation of the local organization named in honor of J. Frank Gard post of Glendora, as it is now known.

NEW FACTORY FOR RIALTO

Crushed Pasteurized California Oranges Believed to Increase Demand for Citrus Fruits

RIALTO, Nov. 5.—Establishment of a factory which will further exploit the citrus output in the heart of the San Bernardino citrus district, has just been announced by the San Bernardino Chamber of Commerce, the organization being responsible for the locating of the factory at Rialto.

"Crushed Pasteurized California Oranges" is the name of the new product, the first car of which has just been packed and consigned to a Chicago firm. It is an entirely new process, using the best grade of fruit and is a form of the California orange which heretofore has been nonexistent. It has been labeled the "Rialto" brand because of its manufacture in this community. The firm name is given as the Associated Products Company.

R. M. Woods of Kansas City, is the head of the organization. Last February Woods, who is interested largely in the marketing of citrus products, wanted space in the National Orange Show to exhibit certain citrus goods. Orange show officials managed to find a little section of the great orange show building for the purpose, in order to

PULLMAN PORTER AFTER BEAR

Faithful Servitor on Pullman in Which Santa Monica Golf Professional Set Forth for Turkey Hunt, Writes Promise of Bruin Steak for Him

SANTA MONICA, Nov. 5.—From turkey hunting in the Blue Mountains, 200 miles out of Tucson, Ariz., to bear hunting in Wisconsin, a far cry but Lou Berrie, golf pro of the Santa Monica Municipal Links at Clover Field, is hoping that "Butler" of Chicago, who porter on Lou's sleeper, gets more bears than Lou got turkey.

Not that Berrie can't shoot. Anybody who has watched him sock a ball down the middle of the fairway or pitch a maddeningly close shot dead to the pin knows the Santa Monica pro has an uncanny eye. The turkey simply were everywhere else, being wise birds; so Lou got three.

And now for the bears: Lou carried a pet 20-gauge shotgun, and it looked as sweet to the porter on his train that the colored man simply camped beside that gun. On his arrival home Lou received the following letter:

CHICAGO ILL. Oct. 20.

Municipal Golf Club Santa Monica Cal.

Dear Sir: Just this to you as I promise to you this to your porter that you rode with on your way to Tucson Ariz Oct. 20 to go hunting I am so interested in sport of that kind and a lower off guns how much but I did not have one even as the weather turn cold I am going to hunting up in western this winter I am sure I will get you sure shall have A steak I hope to get a card from you some time.

INSANITY DEFENSE HEARD

Three Alienists Testify in San Diego Court in Case of Asserted Slayer of City Jailor

SAN DIEGO, Nov. 5.—That George Zehr was insane when he clubbed R. B. McPherson, city jailor, to death, was the testimony offered today in Superior Court by three alienists. Zehr, at the time he attacked the jailor, was charged on a charge of having beaten his young son with a piece of heavy pipe. The charge of murder and criminal insanity were combined when the jury today began hearing evidence calculated to determine Zehr's sanity. He had pleaded not guilty by reason of insanity.

Testimony was offered by three State tending to show that the jailor had entered Zehr's cell and had been thrown to the floor after which Zehr took the jailor's club and beat him brutally. McPherson died without recovering consciousness.

Another trial, that of George Dietrick, 70 years of age, charged with the murder of T. S. Higgins on May 31, last, was resumed today in another department of Superior Court. Prosecuting Attorney O. A. Thorpe said the State was able only to show that Dietrick fired the fatal shot but could offer nothing to refute the contention of the defendant that he fired in self-defense.

Judge Turney Armistice Day Legion Speaker

MONROVIA, Nov. 5.—Raymond L. Turney, presiding judge of the Los Angeles Municipal Court, will be guest speaker at the Armistice Day exercises next Monday in Library Park. It was announced today by V. Bush, Commander of Monrovia Post No. 44, American Legion.

Among other distinguished guests will be Sen. Van Nuys, late of Redland, but now a resident of Los Angeles, semi-invalid, who received practically every form of citation awarded during the World War.

Distinguished guests along with heads of patriotic and civic clubs, women's clubs and service organizations will be introduced from the platform in the park, and Mayor A. J. Little will make a short address appropriate to the occasion.

Following a brief band concert at 10:30 a.m. invocation will be given by Rev. H. H. Hulien, pastor of the First Baptist Church.

According to plans outlined by Bush, the fire whistle will blow at 11 a.m. sharp in commemoration of the signing of the Armistice eleven years ago. This will be followed by a salute by the Legion firing squad, after which there will be a luncheon in memory of departed veterans. An impressive part of the program will be carried out during the sounding of bugles when members of the assembly and participants in the memorial service will face west.

The Legion will climax the celebration with a grand ball and cabaret in the evening, to be held at the Woman's Club.

NEW FREIGHT DEPOT BEGUN

HUNTINGTON PARK, Nov. 5.—The Union Pacific Railroad Company has started the erection of a new freight depot on East Station avenue, along its tracks, to take care of the large increasing freight business in the manufacturing district. The new structure will be 240 feet in dimensions, one story in height, when completed. It will be of brick with tile roof, and will cost approximately \$5000.

INSUFFICIENT FUNDS CHARGE PREFERRED

HUNTINGTON PARK, Nov. 5.—Glenn King, giving his home as Co-vine street in Long Beach, was before Judge Edward H. Miller, in this city yesterday, where he was arraigned on a charge of issuing a check on the California National Bank in Long Beach, in which it was stated he had "insufficient funds in that bank."

The check was drawn for \$1500, and was given as part payment for the purchase of an automobile, the check being presented to Vincent Townsend of the local Federal agency. The complaint was filed by Townsend. King is to be given a preliminary hearing Saturday before Judge Miller, his bail being placed at \$3000.

WOMAN RECOVERING FROM POISON DOSE

HUNTINGTON PARK, Nov. 5.—Mrs. Laura Antonia, residing at 2620 Walnut street, is recovering from the effects of having swallowed a quantity of poison at her home here, the latter part of the week. A telephone call was sent into police headquarters that Mrs. Antonia had drunk a quantity of the poison, and local police hurried to the residence, and she was called in an ambulance, the woman being in an unconscious condition. She was hurried to the Mission Hospital, where she was given immediate attention, and is now out of danger, it is stated. Whether the poison was taken intentionally or purposely was not made known.

FLOOD CONTROL WEIR PLANNED

San Bernardino Supervisors Provide Share of Funds

Counties of Riverside and Orange to Contribute

Actual Construction Hoped to Begin Next May

REDLANDS, Nov. 5.—San Bernardino county's initial share in the construction of the proposed weir at the mouth of Santa Ana Canyon above East Highlands has been provided by the Supervisors today with an appropriation of \$11,200. The counties of Riverside and Orange are to contribute an equal amount each and actual construction of the weir, to cost somewhat less than \$100,000, will begin next May if plans carry.

The weir, bridging the canyon above the Elton power plant, will be about 500 feet long and six feet above the bed of the river. It is not intended for the storage of water, but for checking floods that annually sweep destructively out of the canyon during storm times.

Water thus held will be diverted through a tunnel to the spreading grounds of the Tri-County Water Conservation Association, where thousands of acres of land can be saved to the lower valleys of the Santa Ana basin, thus bringing the interests of Orange and Riverside counties to the front equally with this county.

It is proposed to start construction of the weir as soon as there is no danger of winter storms while work is under way.

Winder Opens Novel Attack in Water Row

RIVERSIDE, Nov. 5.—Attorney A. Heber Winder today hurled a bombshell in the fight to have the Hemet Irrigation District dissolved for asserted lack of one vote at the special election in 1927. Representing the contestants of the Hemet Valley, Winder, in an affidavit filed with Superior Judge Freeman, asserts that the board did not open the sealed ballot envelopes from the election but made the canvass of the vote on the unofficial tally sheets.

The official election returns have been filed in the election closet in County Clerk Clayton's office since being placed there in September, 1927, according to Winder's affidavit. A short time after the election the board did not open the sealed ballot envelopes from the election but made the canvass of the vote on the unofficial tally sheets.

Winder's attack is a novel one, as the board did not open the sealed ballot envelopes from the election but made the canvass of the vote on the unofficial tally sheets.

LYBIAN GUARD ON ITS WAY

Crack Sciot Drill Team After Prize

Under leadership of its Toparch, D. Scott Field, who is also its drillmaster, the team is today scheduled to arrive at San Francisco for State convention of the order. Left to right, top row—B. Thompson, H. Ammerman, A. Wyness, G. Lind, P. Kirk, Ben Cook, G. Burns and H. Penia. Bottom row—D. Scott Field, William Bell, A. Alexander, Dan Prime, W. Schroer, H. E. McMillan, C. E. McGinnis and L. Karrow. Alternates for the above include R. Manning and J. Nares.

Prize of Ingleswood Pyramid Lines Up

Ingleswood, Nov. 5.—Ingleswood Pyramid of Sciotia, crack Lybian Guard left today in full uniform for San Francisco to participate in the national convention of Sciotia. Eighteen members of the guard, two alternates, and a number of other prominent local Sciotia with their wives, are in the party, making a total of thirty-five from this city. The Lybian Guard is under the command of Capt. D. Scott Field, who is also the present Toparch of the local Pyramid.

The party went from here to Wilmington where the steamship Yale was boarded for the voyage north. They are scheduled to arrive in San Francisco tomorrow morning. The group will be quartered at the Argonaut Hotel in that city. A number of Sciotia are making the trip by motor, among these being Past Toparch E. S. Dixon, Mr. and Mrs. H. Penia, Mr. and Mrs. Wyness, E. Blaise, I. Barlow, Mr. and Mrs. William Kemp, Sciot Manning and his wife and mother.

The Lybian Guard, in addition to its drillmaster and Toparch, includes: B. Thompson, H. Ammerman, A. Wyness, G. Lind, P. Kirk, Ben Cook, G. Burns, H. Penia, William Bell, A. Alexander, Dan Prime, W. Schroer, H. E. McMillan, C. E. McGinnis and L. Karrow.

City Clerkship Resigned But Manager Still

MONTEBELLO, Nov. 5.—The City Council at its meeting last evening accepted the resignation of L. O. Herr as City Clerk. Herr, since his appointment to the position of City Manager on June 4, 1928, has held the two positions.

The ever-increasing burdens and responsibility of the position of City Clerk, not to speak of the increase in clerical work in the office of City Clerk, occasioned by the heavy growth in civic activities and population made the separation of the two positions necessary.

Under the new arrangement Herr will be relieved of the burdens of clerical work and will be able to devote his entire time to discharging his duties as City Manager.

J. P. Walker was unanimously appointed by the Council to the office of City Clerk. Walker, who besides his duties as deputy City Clerk has acted as secretary of the police department, has won a host of friends and an enviable record. He is qualified to act in the possible time when he is appointed, having been employed for over twenty-five years by the West Coast Central Railroad working up to a position as personal representative to the first vice-president.

Women Solve Officer's Task

UPLAND, Nov. 5.—C. S. Lehman, traffic officer, is a man who will not be denied. He was ordered by Police Judge George R. Crane at a moment's notice, to recruit a jury of twelve to try a case. Lehman looked out of the door and found two men who were immediately drafted. But to get ten more jurors was the problem.

Then he remembered that the American Legion Auxiliary was holding a meeting. Bravely he walked into the midst of the women counted out ten of them and took them with him to court. Fifteen minutes was all that was needed to organize the jury after Lehman received his orders.

FUNERAL CONDUCTED FOR VICTIM OF BURNS

MONTEBELLO, Nov. 5.—Funeral services were held today at St. Benedict's Church for James Clarence Hagan, 30-year-old son of Mr. and Mrs. J. A. Hagan of 108 East Cleveland street, who was severely burned Thursday while at work in an East Side industrial plant where he was employed. He was immediately taken to the Methodist Hospital in Los Angeles, where his burns proved fatal.

It is reported by his family that the materials with which he worked caused friction which in turn caused state electricity to ignite his clothing. Interment was in Calvary Cemetery.

VENTURA BRIDGE URGED

State Highway Division Engineer and City Council to Confer on State Funds for Project

VENTURA, Nov. 5.—The building of a new bridge across the Ventura River in connection with the proposed opening of the east end of Meia street into Thompson Boulevard to provide a highway traffic lane through Ventura will be discussed at an early meeting between the City Council and S. V. Corley, State highway division engineer. Instructions to arrange for the conference were given by the city last night to City Engineer Donald McMillan by the City Council.

The conference is expected to bring out just how much the State will toward paying for the erection of the new bridge and what the city must do to secure the greatest advantage.

The State Department for the past two years has urged repeatedly that Meia street be opened and that arrangements be made to alleviate the notoriously bad traffic congestion on Main street due to confusion of local traffic, fast through-traffic and auto-parking.

City Engineer McMillan said that

JOHNSTON CASE UP IN COURT

Jury Selected in Trial of Montecito Rancher in Manslaughter Action

SANTA BARBARA, Nov. 5.—A jury of eight men and four women will decide if Keith Johnston, young wealthy Montecito rancher, is guilty of manslaughter and driving an automobile while intoxicated in connection with the death of Michael Daneris, San Francisco business man, several weeks ago.

After three hours of questioning in which the defense used six of its ten peremptory challenges and the District Attorney only used two, the jury was impaneled. The defense was handicapping the jurors who indicated a prejudice against the use of any intoxicating liquor.

Johnston is to be tried on two counts, according to the complaint sworn out by Traffic Lieutenant Bassett, Johnston was driving his car while in an intoxicated condition. His car collided with that driven by Paul Daneris, a son of the man who was killed. Johnston and his daughter also were injured in the accident but the youthful driver as well as Johnston and two occupants in his car escaped with only slight bruises. Daneris was killed outright.

Paul Daneris was on the stand late this afternoon giving only one opportunity to explain how his family had started on the trip from San Francisco.

The jurors are: Fred Gilford, Clyde Crowell, Alton Lowry, Lottie Brown, John W. Paulsen, Henry L. Frederick, George Lloyd, Mrs. George Wells, Mrs. James Scott, A. C. Lima, Otis L. Unshar and Joe Calderon.

STATE AID SOUGHT TO BUILD ROAD

Counties of Riverside and Orange to Request Sum of \$150,000 for Highway

RIVERSIDE, Nov. 5.—That Riverside and Orange counties intend to ask for \$150,000 State aid for construction of the Ortega Highway from Elsinore to the Pacific under a joint highway district, was disclosed by Chairman T. C. Jamieson of the Riverside County Board of Supervisors as he made public the name of Frank Champlin, Mayor of Laguna Beach, as the third member of the joint committee.

Jamieson and Supervisor Jettie of Orange county were designated by the respective boards of supervisors.

Organization of the district is to be completed about the 1st inst. when Jettie returns from a trip to Los Angeles. A meeting of the three is to be held as soon after that date as possible. Jamieson announced.

Construction of the highway, penetrating the mountains south of Elsinore and partially following an old wagon route, would cost \$1,000,000, it is believed. The State joint highway district law makes it possible for large sums to be raised from the State funds to aid two counties in the building of roads linking them. The Riverside county board has consistently said there was no money available for the Ortega road project because of work on the Inland-to-the-Desert road, but they were interested by the report that a large sum could be obtained from the State and so opened negotiations with Orange county.

Orange county has begun construction of her portion of the road, initial contracts totaling more than \$100,000. It is understood the neighboring county has agreed to waive her right to her portion of the road, and to turn the money to this county's road budget, in the hope of leading impetus to the undertaking.

BETTER NEWS SOUGHT

VAN NUYS, Nov. 5.—This city is to have a new postal station. Word received today by Postmaster Webster Bernhardt from Arch Coleman, first assistant Postmaster General, gives E. A. Daneris the right to operate what will be known as contract station No. 1 of the local postoffice at his residence and daily mail delivery on North Ventura avenue. The new station will take care of stamps, parcel post and money orders, but will have nothing to do with mail deliveries. A letter and package drop will be installed at the new station, which is scheduled to open the 15th inst.

VENTURA TO HAVE BRANCH POSTOFFICE

REDDONDO BEACH, Nov. 5.—Funeral services were held here this afternoon for Mrs. Alma Tuttle, 79 years of age, the wife of Alvin Tuttle, a retired official of the Security-First National Bank of Los Angeles, who passed away at her home on Herberta street, Saturday, after a few months' illness. Mrs. Tuttle was the daughter of Col. H. B. Hubbard, Civil War commandant by United States Commission from Ingleswood, where the family had lived for nearly thirty years. Mrs. Tuttle was widely known, and leaves a large circle of friends.

She leaves a son, Frank J. Tuttle, and the widower.

Services were in charge of the Gale funeral chapel, followed by cremation in Ingleswood Park Crematory.

NARCOTICS CHARGE FILED ON CHINESE

SAN DIEGO, Nov. 5.—Charges of illegal possession of a quantity of narcotics were filed today by Federal Narcotic Agent A. M. Monroy against Tom Boz, 33 years of age, Chinese, arrested yesterday by Monroy, Detective Sergeant Richard Chadwick and Detective Leonard.

Coming to this city nine years ago from Ingleswood, where the family had lived for nearly thirty years. Mrs. Tuttle was widely known, and leaves a large circle of friends.

Huge Supplies of Wheat Hit Prices on Mart

CHICAGO, Nov. 5. (AP)—About new breaks in wheat values tore the market down 3 1/2c a bushel today, making a maximum drop of 9 1/2c from last week's top level. Huge immediate supplies on hand, both in the United States and Canada, as well as at the principal European ports, appeared to be largely responsible. Notwithstanding late estimates that the fresh outflow of prices had brought about trans-Atlantic purchases of 1,000,000 bushels of North American wheat today, the market had closed at within 1/2c of the lowest noted reached.

Latest Chicago quotations on wheat were nervous. 2 1/2c 3/4c under yesterday's finish. Corn closed 1 1/2c 1/4c down, oats 1/2c to 1 1/4c 1/2c up and provisions unchanged to a setback of 1/2c.

With Liverpool, Hamburg and Rotterdam prices for wheat today showing much greater downturn than had been looked for, the market here showed weakness from the outset. In particular, Chicago traders were uneasy over reports of increasing stocks of wheat in Europe and because of widespread notice being taken of further enlargement of the immense visible supply in the United States. The purchase of wheat at Liverpool, while hundreds of wheat-laden cars were reported waiting under duress at the docks, with Kansas City and St. Louis offering No. 2 hard wheat available immediately at a big discount under futures.

Adding impetus to the downward swing of wheat values were assertions that European export demand for wheat of wheat on this side of the Atlantic carry the load and pay storage charges, bunking at the dock only when pressure needs require. On the other hand, a leading trade authority gave out a detailed statement today indicating that world import requirements hereafter for wheat this season, taken as a whole, will total 70,000,000 bushels. This amount is nearly 100,000,000 bushels in excess of the latest current estimate from the foremost British source.

Clear, cold weather, excellent for field work, did a good deal to pull corn prices lower. Oats declined with corn and wheat.

Provisions reflected downturn in the value of hogs.

PORTER FUNDS QUIZ BAFFLED

Sherman Accused of Withholding Facts
Primary States Campaign Without System

When questioned yesterday by the committee on the primary states campaign, Mayor Porter was baffled by a series of questions regarding the funds he had received and expended. The committee, headed by Mr. J. H. Brown, asked Porter to explain the source of the funds and how they were being used. Porter, in turn, accused the committee of withholding facts and of not following a proper system in their investigation.

Porter's answers were often evasive, leading to further questions. The committee members expressed their frustration with Porter's lack of transparency and his refusal to provide clear answers to their inquiries.

The investigation into Porter's campaign funds is part of a larger effort to ensure transparency in political campaigns. The committee hopes to uncover any potential misuse of funds and to establish a more systematic approach to campaign finance reporting.

Porter's defense team has argued that the committee's questions were overly broad and that Porter was not obligated to answer them. They claim that the investigation is an attempt to undermine Porter's campaign and that he should not be subjected to such scrutiny.

The committee, however, insists that it has a duty to investigate the Mayor's campaign funds. They argue that the public has a right to know how the Mayor's money is being spent and that Porter's evasive answers are unacceptable.

The investigation is expected to continue for several more days. Porter's campaign team is preparing for further questions and is confident that they can defend their client against the committee's accusations.

Fabulous Wage and Estate Bestowed

Donald Gay, Jr., and Mitti Green

Mitt Green, 9 years of age, signed her contract for a fabulous wage and estate bestowed upon her by the mythical Midas wand. The contract, which was signed in the presence of a notary public, guarantees Green a large sum of money and a portion of the estate of the person whose wish she fulfills.

Green's contract is the latest in a series of similar agreements that have been signed by children in the area. The contracts are part of a publicity stunt designed to attract attention to a local business. The business claims that the Midas wand is a magical device that can turn wishes into reality.

The contracts are signed for periods of one year. At the end of the year, the child is supposed to fulfill a wish for the person whose estate they are to inherit. The business claims that the wand is a powerful tool that can make the child's wish come true.

UNION STATION DECISION NEAR

Stephens Thinks Court May Rule Before Christmas

City's Special Attorney Home After Final Argument
Werner Expresses Hope for Favorable Action

A decision in the Los Angeles union passenger terminal case possibly may come from the United States Supreme Court next month, according to a statement made by the city's special attorney, J. H. Stephens.

Stephens, who is expected to return to the city after his final argument in the case, expressed his hope that the court would rule in favor of the city. He said that the city's position was strong and that he believed the court would see the merits of the city's case.

The case involves the city's plan to build a new union passenger terminal at Union Station. The union has opposed the plan, claiming that it would result in the loss of jobs for its members. The city, however, argues that the new terminal is necessary to accommodate the growing number of passengers using the station.

The city's plan for the new terminal has been met with resistance from the union. The union claims that the new terminal would result in the loss of jobs for its members and that it would be a threat to their livelihood.

The city, however, insists that the new terminal is necessary to accommodate the growing number of passengers using the station. It argues that the union's opposition is simply an attempt to delay the construction of the terminal.

AUCTION RECALLS EARLY DAYS

Rare Baldwin Furniture to Be Sold

Mary Mayer Admiring Pioneer California Cabinet

A rare Baldwin furniture set, including a large cabinet and several smaller pieces, is to be sold at an auction. The furniture is said to be from the early days of the Baldwin family in California and is of great historical value.

The auction is being held by a local firm and is expected to attract a large number of bidders. The furniture is being sold for a large sum of money, reflecting its rarity and historical significance.

The Baldwin family is one of the most prominent families in California history. The furniture set is a testament to their wealth and their contributions to the state's development.

The auction is a rare opportunity for collectors and historians to acquire a piece of California history. It is expected that the furniture will be sold for a high price.

Fortune Put at \$160,000 When He Became Mayor

Value of Realty Deals Told in Shuler Libel Case
Modest Burglars of Pastor's Article Put at \$17,000

George E. Crayer was worth approximately \$160,000 when he assumed office as Mayor of Los Angeles in July, 1921, he testified yesterday on the witness stand in Municipal Judge Pope's court, where Rev. R. P. Shuler is on trial on charges of libeling the former Mayor.

Crayer's testimony was part of a larger effort to establish the value of the Mayor's fortune at the time he took office. The judge is expected to use this information to determine the damages in the libel case.

The trial is expected to continue for several more days. Crayer's testimony is being closely watched by both sides in the case.

The trial is a high-profile case that has attracted a large number of spectators. It is expected to be a significant event in the city's legal history.

KELLEY INQUIRY PROVES FUTILE

District Attorney's Office Closes Investigation

New Evidence Declared Not to Clear Prisoner

Resentencing Again Delayed in Mollus Murder Case

Following a conference with District Attorney, Pitts, Assistant Chief Deputy District Attorney Jordan, yesterday officially closed his investigation into the murder of Mrs. Mollus. The inquiry was reopened last Saturday when Charles E. Lewis, a brother of Mrs. Mollus, went to the District Attorney and stated he had discovered evidence which indicated that Leo Pat Kelley might not have been the slayer of Mrs. Mollus.

STATEMENT ISSUED
After investigating this new evidence and questioning numerous witnesses it has been found to be without foundation, according to Jordan. In closing the case, Jordan issued the following statement:

"The Supreme Court has rendered a decision sustaining the conviction of Leo Pat Kelley, and has stated therein that they believe the evidence conclusively proved that Kelley had caused the death of Mrs. Mollus."

"The evidence brought to the attention of the District Attorney's office does not conflict with the evidence produced at the trial, nor does it throw any additional light upon the guilt or innocence of Leo Pat Kelley."

"Any additional evidence that any party or parties have to offer would be made hereafter to the Governor or to the Board of Prison Directors. As far as the District Attorney's office is concerned, the investigation is closed."

ADDITIONAL DELAY
A further delay of two weeks in the resentencing of Kelley was ordered yesterday by Superior Judge Appleby because of the absence of initial papers from the Supreme Court.

Kelley was convicted of the murder a year ago last August and sentenced to death. After appeal was denied, the defendant won his appeal and was brought to Los Angeles to be resentenced on the lesser charge.

DISMISSAL OF BADHAM CASE ASKED
Judge to Hear Arguments Today Following Long Technical Discussion

Arguments on a motion to dismiss the charges against Assemblyman Willard A. Badham, accused of violating the primary election law, made on technical grounds yesterday by Frank Smith, defense attorney, will be heard this morning by Municipal Judge Wood. Smith made the motion on the ground that the court is without jurisdiction to enforce one of the penalties provided for the offense, dismissal from office, which is vested exclusively in the Legislature.

Deputy City Prosecutor Fox and Smith stipulated yesterday that Badham, following the primary, was duly elected to and seated in the Assembly as Assemblyman from the Seventy-second District. Fox put up on his only witness, Griffith Maschke, deputy County Recorder. Maschke testified that Badham filed his primary election certificate account in person on November 7, 1928, instead of before November 13, 1928, the last day allowed him to do so, under the law. The day's session was taken up with arguments by counsel over legal technicalities.

Wife Divorces 'Untamed' Mate
James E. Keagy is a primitive man, according to his wife, Myrtle, who went before Superior Judge Frankovich yesterday seeking a divorce on the grounds of cruelty.

Mrs. Keagy testified she lived with her husband twenty years but that he couldn't tam with her. "You lived with him long enough to tame him," Judge Frankovich remarked. The couple married in 1908 and separated in 1918. A decree was granted.

WESTERN AIR EXPRESS RECEIVES NEW PLANE
Western Air Express yesterday received another trimotor, twelve-passenger Pottier monoplane, cost \$40,000, bringing its fleet of this type up to fifteen. It was announced by C. W. H. Smith, general traffic manager, the new plane will be used on the Los Angeles-Kansas City Line. Western Air Express now has more than a dozen airplanes in this type of ship alone.

TWO MORE PAWN-SHOP LICENSES GRANTED
On motion of Commissioner Drake, according to Commissioner Go, the Police Commission yesterday granted two more pawnshop licenses. In making the necessary motions Drake, in each instance held that it is his desire to prove that there is no desire to maintain a monopoly on this line of business.

The permits were granted to Minkus, 26 Molta at 110 East Fifth street, and Ab. Salazar at 264 South Main street, who had applied for consideration of the permits, which were refused two weeks ago.

DEATH OF SPINSTER UNSOLVED
Clues Lacking Despite Rounding Up of Drifters; Jury Says Killer Unknown

Police and a Coroner's jury yesterday both agreed there was no clue to the identity of the slayer of Miss Frances L. Kuder, 77 years of age, who on Saturday was found murdered in her home at 1228 Barry street, Sawtelle. A Coroner's jury, following an inquest yesterday returned a verdict that she came to her death "by strangulation by a person or persons unknown to the jury."

Detective Captain Curtis of the Sawtelle division said no clues have been found pointing to the identity of the murderer. The police are looking for a man who killed Miss Kuder after seeing her display a roll of money on the street. The body was sent to Pontefract, Mich., for burial.

One of the most extensive round-ups of drifters and suspicious characters in the history of the West Los Angeles district has been under way here since the body of Miss Kuder was found Saturday.

Neighborhood reports of prowlers, particularly one man who fled from a residence when detected, leaving a fence and a broken window in the rear yard, have been followed up by the police.

A number of men have been taken into Sawtelle headquarters and questioned closely regarding their movements. Detective admitted, however, that the man who left a sign stub in the dining-room—under number 12, 1928, the last day allowed him to do so, under the law. The day's session was taken up with arguments by counsel over legal technicalities.

Hot Spell Ends; Cooler Today
A drop of ten points in California weather over a period of twenty-four hours was met smilingly by all motorists, motorists, and a prediction that there might be a further drop today occasioned nothing resembling gloom at the United States Weather Bureau.

Yesterday's highest temperature was 80 deg. at 1 p.m. as compared to 90 deg. Monday, which went down to the records as the hottest November day in more than thirty years. The humidity yesterday remained around 80 points.

Today, according to Col. H. B. Hester, forecaster, will be slightly cooler than yesterday with fair skies and gentle breezes.

DRAIN PROTESTANTS CALL MASS MEETING
El Sereno Home Protective Association has called a mass meeting for the evening of the 10th inst. at the El Sereno School, Rosemead and Norwood streets, to protest the construction of a \$200,000 El Sereno Valley storm drain. Fred Colegate, president, and Stephen I. McAllister, secretary, will preside.

The association has invited Councilmen Randall, Martin, McAllister, Jacobson, and Williams to attend. A parade will precede the meeting.

ANNULMENT SOUGHT
Anna Freeman Pierce went before Superior Judge Yankwich yesterday seeking an annulment of her marriage with Daniel N. KIDNAP HUNT ENDS WHEN TWO RETURN
Girls Precipitate Panic by Stopping to Play on Way Home from School

When June Cole and Betty Frost, each 8 years of age, failed to go directly home from school yesterday, and instead went to a friend's house to play for the remainder of the afternoon, they precipitated a kidnap fright in the neighborhood of their homes that left their parents frantic and started the police on a wide search.

The Cole and Frost girls of 283-B East Forty-fifth street and 276 East Forty-seventh street, respectively, were reported missing after disappearing from the school grounds last night. Two other girls of the same age, told Detective Lieutenant Sullivan that they had seen the girls in a big black car.

A search was started and scores of officers were working on the case when June and Betty came home after dark and said they had stopped to play with a girl chum.

WATER DISTRICT IN POWER PLEA

Metropolitan Board Seeks Boulder Dam Excess

Resolution Sent to Wilbur Following Discussion

Surplus Wanted for Sale to Southland Towns

The attitude of the Metropolitan Water District toward activities in the power field came up for discussion at the meeting of the district's board of directors yesterday in connection with the adoption of resolutions addressed to the Secretary of the Interior.

The board was discussing a resolution, finally adopted, requesting from the Secretary of the Interior permission to sell to member cities of the district excess power from its allotment from Boulder Dam power.

It was brought out that there probably will be a period during which the district cannot use all the power allotted to it by the government. Under the present arrangement such excess power would be turned back to the government to be allocated to other municipalities or private companies. The district would like to sell this excess at cost to member cities for district or municipal purposes.

QUESTION DEBATED
There was some question as to whether to specify "municipal purposes."

"Why not just say that we want the excess for municipal purposes, such as street lighting?" Judge Huston, delegate from Santa Monica, asked. "Let's be able to say to ourselves that they are not using additional power by becoming members. It will be an inducement to join the district, and we need them all."

"Why stop at street lighting?" asked Dr. John R. Haynes, Los Angeles delegate, who is president of the Board of Water and Power Commissioners.

W. Turney Fox, delegate from Glendale, said that as he understands it, the district delegation to Washington has represented to the committee that they are not using additional power by becoming members. It will be an inducement to join the district, and we need them all."

"Why stop at street lighting?" asked Dr. John R. Haynes, Los Angeles delegate, who is president of the Board of Water and Power Commissioners.

Other resolutions adopted included one requesting the government to pay for and install the power generating machinery at Boulder Dam; another requesting the government to pro rate the membership of the district on the basis of power plant, on the basis of power allocation, and to limit the authority of the membership to one of advisory capacity, and a final one urging the government to raise the height of the dam from 500 feet as planned, to 575 feet.

The Los Angeles Board of Water and Power Commissioners adopted virtually the same resolutions as the district, covering the payment and installation of the electrical machinery and the pro rating of the proposed board of control for the operation of the power plant, on the basis of power allocation, and to limit the authority of the membership to one of advisory capacity, and a final one urging the government to raise the height of the dam from 500 feet as planned, to 575 feet.

During the meeting, O. T. Johnson, newly appointed member from Los Angeles, officially was received as a member of the board. W. B. Matthews, counsel for the city water board, was employed as counsel for the district, the city and Judge Thompson, secretary of the city water board, was employed as secretary of the district.

COURT WILL GIVE RULING ON APPEALS
Supreme Tribunal Asked to Decide Legal Value of Oral Notice of Intention

The legal value of an oral notice of appeal from a criminal court judgment will be settled by the State Supreme Court when that tribunal sits in its next session. An alternative writ of habeas corpus has been issued by the high court against the Municipal Court and Judge Thompson, growing out of the case of Solway vs. Municipal Court, and argument on the writ has been set for December 11 at 10 a.m. The Supreme Court will be asked to decide whether the time of taking an appeal runs from the oral or from the written notice. The written notice should have been filed within fifteen days of the date oral notice was given.

Noting that the District Court of Appeal has already ruled on a similar case that oral notice is sufficient, Harvey and Engelhardt, attorneys for the petitioner, seek a Supreme Court decision.

FLYING FIELD NAMED AFTER 'BUDDY' ROGERS
Charles "Buddy" Rogers, film actor, yesterday received word that the Paramount studio that his home city, Olathe, Kan., has honored him by naming their new aviation field after him. Incidentally the field is property Rogers and his father, Roy Rogers, newspaper publisher, bought together five years ago before he was dreamed of a film career. The property recently was sold by Rogers and his father to an attorney who turned it into a airport and named it "Buddy Rogers Field." The field covers 500 acres.

QUINN VERSUS DAVIS

The mystery which has surrounded John A. Quinn, politician who, according to his own accounts, gave Los Angeles its present Mayor, boasts that he will elect the next Governor, seeks domination in city and county politics and is just now engaged in an attack on Chief of Police Davis, is rather deepened than dispelled by the answers Quinn has forced to give under oath when he was haled into court at the behest of a creditor to whom he owes, but does not pay, \$112.25.

The position of boss-ship to which Quinn—not to be confused with John R. Quinn, late candidate for Mayor—aspires presupposes a certain standing in the community. It would be expected of the man who aspires to run Los Angeles, Los Angeles county and the State of California that he would have such a stake in the community, a genuine and not merely an academic interest in public affairs. There is no doubt, it is disclosed, that Quinn's own words are credible, the following astonishing state of affairs.

Quinn is not a resident of Los Angeles. He is not a registered voter. He is not a taxpayer. He owns no property, no bank account, no assets of any kind. He has no job, no wife, no children. He has no home, or, if he has, he does not know where it is. He has no visible means of support—no income from any source and "lives on borrowed money."

He resides in Alhambra, but does not know the street address. Asked to state, under oath, if he is an American citizen, he refused to answer. It is hardly conceivable that any man who held citizenship would have any hesitation about affirming the fact.

If such things were said of any man in the course of a political campaign they would not be believed. But they are not fabrications made for political purposes—they are either true or Quinn is a perjurer.

Quinn's position in the community, thus shown to be as complete a vacuum as can well be imagined, forms a contrast with that of Chief of Police Davis which thinking people owe it to themselves to make. Chief Davis has been a resident of Los Angeles for many years, of which he has spent seventeen in the service of public safety, much of the time at very low pay. He has rendered services rendered. He is a citizen, a registered voter, a taxpayer. He is a Spanish War veteran who saw active service in the Philippines. He is married and has five children. He has always lived on his salary and owns a modest home, which he paid for with twelve years' savings. He pays his debts. The very modesty of his circumstances bespeaks his integrity, since much of his police service was in posts with tremendous opportunity to graft.

Chief Davis's career has been one of positive usefulness, of solid achievement. Quinn is the prime mover in the effort to oust Davis. Quinn's complete lack of assets, of useful occupation, of any sort of standing or reputation in the community supplies a contrast not to be disregarded.

Intentionally or otherwise, John A. Quinn has profited to no small degree in his political activities by the similarity of his name to that of John R. Quinn, former national head of the American Legion and a candidate for Mayor at the last election. The two men are as dissimilar as day and night.

The mystery as to who is John A. Quinn is deep as ever. There is, thanks to the hearing in the debtor's court, plenty of evidence as to what he is not. But on the positive side the public is unenlightened, save that he appears to have an extensive acquaintance in dubious political and underworld circles, whence he brought his witnesses in an effort to besmirch Davis's character.

Until something about his positive side is made known, how he convinced the police commission of his right to be heard will be part of the mystery.

AN ABUSE OF CONFIDENCE

The conviction of the heads of two local "cinema schools" for obtaining money by false pretenses, and the maximum penalty imposed by Judge Sheldon on the chief offenders, is a lesson to be heeded by all who are in the business.

Such cases should be given nationwide publicity. They should serve as a warning to the shrewd who employ such reprehensible methods for preying on the ingenuous and the too easily wheedled. Such exposures are calculated to prevent other innocents from falling into these cleverly baited traps. This is the most important end served by the prosecution and conviction of those guilty of such abuse of confidence that always leave a long trail of tragedy and suffering in their wake.

There is, of course, a legitimate field for schools of instruction in the arts of elocution and stage technique, where ambitious aspirants for screen honors may develop what talents they possess to fit them for a career along these lines. No one is more anxious to find real talent than the big Hollywood producers. It is to their own interest to do so. There are legitimate schools—some of them free, public ones—giving instruction in all branches of the film art. Only neglect to first inform themselves on the right course to pursue brings the ambitious aspirants for screen honors into the clutches of these robbers of the hopes and ambitions and (too generally) aim financial resources of the thousands attracted from every part of the world by the lure of Hollywood.

But when bogus schools flourish on false promises, by advertising an ability to place their students in high-salaried positions, an ability they have never possessed, and so cause utterly impossible greenhorns to waste their time and money in chasing will-o'-the-wisps, they are getting money under the most despicable sort of false pretenses.

The sooner the last of these false leaders of the blind is exposed and put out of business, the better it will be for the honest teachers of stage and screen, for the many anxious to get a foothold in this attractive career and for the motion-picture studios and all connected with the theatrical profession.

LEE SIDE O' LA

WHEN everything looks gloomy and you think you're whipped, just take a fresh start and you, too, may do a Gilmore Brown.

Gilmore Brown ended a career of ups and downs, fruitless successes and depressing disappointments, with a disastrous failure in Pasadena in 1915. Then he started a new career which has resulted in the erection of a temple of art which is the most outstanding of all the community playhouses in America and has aroused the interest of many students of things theatrical in other countries.

Furthermore, it is a recognized cultural center of one of the most cultured communities in the world, touching its daily life at many points. For its recent production of "Julius Caesar," for instance, many of the leading club and society women of Pasadena aided in the making of the 350 costumes needed, career which were made by volunteer workers; and high schools as far away as Riverside got up excursion parties among their students to attend the performances.

The research necessary to make those costumes historically correct was done with enthusiasm which could not have been aroused by any enterprise the volunteer workers regarded as commercial and they were not expecting any glory or even credit.

Conscientiousness

Alma, Stepped Him
Gilmore Brown, who has brought these things to pass, was born on a Dakota ranch, though his father had been an actor and a lover of the stage. The elder Brown got the idea that the son should follow in his father's footsteps and he wanted to study the drama, but he sternly put all such folly out of his mind and enrolled in a manual training school, taking a course in mechanical engineering.

When he entered high school the one and only thing he wanted to study was the drama, but he sternly put all such folly out of his mind and enrolled in a manual training school, taking a course in mechanical engineering.

A Fortness of the Spoken Drama

Perhaps, though, he learned too much, for as a young actor his talents were divided. He toured with the Ben

WHAT OTHERS THINK ABOUT IT

WORTH REMEMBERING
(San Fernando Sun)
Not so many years ago two of the most widely advertised and successful American actors were St. Jacob's oil and Pyle's Pearlina.

St. Jacob's oil was manufactured by a man named St. Jacob. As long as he lived he spent a large percentage of his profit in promotion of his business. When he died, the business went to his son, who continued to take charge. He found on the balance sheet an enormous appropriation for advertising and he found that the business was making a profit of \$100,000 a year.

We're a great and glorious people; The marks of our wisdom and worth We observe everywhere, on the sea, in the air.

Another Son of Freedom
(Chicago Tribune)
A Jeffersonian from down-State, James Kirby, a former State representative from the Petersburg district, announces his candidacy for the Democratic nomination for the United States Senate. His purpose, he avers, will be to abolish high tariff duties on foreign goods and to protect the nation's welfare.

WE LIVE AMONG MYRIAD WONDERS; And suppress our emotions the while. Great buildings arise till they're lost in the skies.

At the height of an eighth of a mile, But we turn out in tense breathless thousands And are all of us moved to the soul At the sight of some chap who is swung on a strap.

At the top of an eighty-foot pole. Surrounded with ease and with comfort We mutter and moan and complain. Distracted of mind we continually find Life's pleasure but futile and vain.

We sit 'round and moodily wonder What this earthly existence is for And nothing will serve to restore the old verve.

But a swig of synthetic prewar! (Copyright, 1929, by The Bell Syndicate, Inc.)

South American Cruise

STEAMSHIP CITY OF LOS ANGELES, CALIF. (Peru) Oct. 16.—(To the Editor of The Times): It is a great pity that there are not at least 100 more of us or this cruise, not that we, the tourists, would be more favored in any way by the increase in numbers, but this splendid ship and crew deserve to have a full quota of passengers.

I am something of a wanderer and have sailed over the seven seas. It has never been my pleasure to embark on a smooth-riding ship under a finer crew. From the captain to the common sailor, fireman, etc., all are courteous and are trying to make the trip a success.

Aboard any ship a finer-looking or a more cultured crew would be indeed hard to find. They are appropriately and beautifully groomed. There is only one child on the ship, a nice little girl.

As to the men if they do not quite measure up with the ladies, they look like a solid lot of business people, some retired with several young men who have come for educational benefits. Taken altogether this collection of women and men is a sensible, jolly, well-dressed and well-behaved group, and should prove to be a credit to the United States and cause our good neighbors of the Southern Hemisphere to look forward with keen interest and real pleasure to the next cruise of the City of Los Angeles.

The cruise is admirably directed by Mr. R. F. Cullen and his efficient assistants. One of the most interesting features of their administration is a class in elementary Spanish which is attended by nearly all of the tourists.

Beginning Twelfth Year

The Pasadena Community Players have just begun their twelfth year, and their standing is such that "graduates" of other community players and little theater groups from coast to coast continually come here to take "post-graduate" work in their production.

They have presented several American premieres and at least one world premiere of plays which have later succeeded elsewhere. Their productions "range from the sublime to the ridiculous."

Only a few years ago the manufacturers found that carbon black, used in certain products with rubber, hardened that substance so that it prolonged the life of the tire. In the present manufacture of tires 40 per cent of the carbon black is carbon black, which increases the life of the tire to a great extent.

More than half of the world's supply of carbon black is produced in the Panhandle section of Texas, where the supply of gas is unlimited at this time. About 450,000 cubic feet of natural gas per day is consumed, making approximately 675,000 pounds of carbon black.

It appears that with our large tire manufacturing plants located in and around Los Angeles, they would be a substantial consumer of this gas by-product with no reason why a large volume of gas could not be turned into a profitable consumption. The demand for black throughout the world extends to the manufacture of other rubber goods, printing ink, paint pigments and dyes.

The world's market through our harbor is here for this product. Why not produce it with plenty of the raw material from our natural resources?

Brea Tar Pits

HOLLYWOOD, Nov. 3.—(To the Editor of The Times): After reading your article today about the tar pits I went over to take a look at them. Very interesting.

I made it a point to see the pit where the three boys nearly lost their fate. This pit is still a grave danger to others and I suggest that steps be taken to warn the owners up some kind of a fence to show people that danger lurks there.

A coat of dust covers the tar making it look like the hard soil. It is difficult to recognize the danger in the daytime and perhaps impossible at night. Absolutely no precautions have been taken to guard against loss of life. A few dollars would put a fence or rail around this pit. Even a danger sign would help.

Maybe many a death might be accounted for if this pool were cleaned out. Will you start something? HOLLYWOOD VISITOR.

MANGANESE MIX-UP

An instance of how the interests divide up sometimes on certain items in the tariff bill came up on the matter of manganese ore. The steel manufacturers, evidently presuming on their strong position, made arrangements with Russia to buy manganese for their needs, and when they came and told the Senate Finance Committee about it, manganese was obligingly put on the free list.

BEING ONESELF

BY BAILEY MILLARD
Abbe Dimmet, the philosophic Frenchman whose book, "The Art of Thinking," has such a tremendous vogue in this country; just now, is on a lecture tour of California. Wherever he goes the halls are jammed and he is listened to with something akin to awe, especially by the ladies, who form the bulk of his audience.

A friend of mine, writing from San Francisco, tells of the rapturous interest and fully expressed appreciation of the crowds of women that have greeted the good abbe in that city, and doubtless he will have a similar reception in Los Angeles. His sunny, hopeful philosophy is worthy of close attention. I have read and pondered over his highly popular book to find wherein lies his strong appeal. I should say that it is largely due to his clever phraseology, which gains in piquancy because he is a Frenchman writing in English. Still it is not merely Gallic, but universal wisdom which he dispenses—the kind that makes the Bible and Shakespeare as applicable to human nature now as when they were written.

Like most philosophic writers, Dimmet has his catchwords, and some of them are indeed hard to find. They are appropriately and beautifully groomed. There is only one child on the ship, a nice little girl.

As to the men if they do not quite measure up with the ladies, they look like a solid lot of business people, some retired with several young men who have come for educational benefits. In a recent address Dr. Millikan spoke of progress, adding, "The progress of the world is not in the material, but in the spiritual." This is good talk. It makes for originality of ideas instead of standardization and limitation, for invention instead of imitation.

One of the most notable arrivals for some time in Pasadena is F. C. Adams, known as the "Big Boy" of the scholarship fund to Northwestern University. Mr. Adams, who came to the Southland recently with his family, will call shortly for a brief stay in Honolulu, after which he will return to his new home at 200 South Orange Grove avenue for the winter.

Reverend Told

An announcement party at the home of Miss Mavis Brand, 222 South Highland avenue, was a lovely affair of last week, when the young hostess, ward of Mr. and Mrs. J. D. Adams, presided over the reception of the Rev. Dr. J. D. Adams, son of Mrs. Rose O'Connell, formerly of Oregon.

Forty guests were assembled for the luncheon, for which decorations were effective in orange and black to symbolize Halloween. Beneath the table, a black cat was found in a tiny black kitten, on which was inscribed the names of the affianced couple, and their wedding date set for the early January.

The news came as a surprise to their friends, and many now are planning affairs with which to celebrate during the two months before the wedding.

University Affair

During their monthly supper and social meeting this evening, members of the Young Women's Christian Association at the University of Southern California will entertain in the social hall of the Student Union with a program of singing, dancing and an exhibition of motion pictures. Miss Beth Tibbitt, president, is in charge.

Local solos will be presented by Misses Martha and Margaret Fike, and Miss Jean Maschio will dance. Motion pictures of foreign countries will be shown by Dr. Lena Leonard Fisher, whose trip around the world will furnish material for an address. Dr. Fisher is president of the advisory board of the Young Women's Christian Association.

Mrs. Pearl Allen Smith, assistant dean of women at the University of Southern California, is secretary of the Young Women's Christian Association, and has general supervision of all committees of the organization. Prominent Los Angeles women who are presiding some committees include Mrs. O. E. Cook.

When the Sandman Comes
A Bedtime Story
by THORNTON W. BURGESS

Some things are difficult to gain. By craft and guile we may obtain. —Rudyard Kipling.

Reddy Fox had discovered Peter Rabbit in a bramble tangle in the Old Pasture and he knew that Peter had not discovered him. Those sharp eyes of Reddy's told him the instant he looked at Peter that something was wrong with him. Remembering the lesson of the terrible gun which he had heard some time before, Reddy suspected that Peter had been hurt by that terrible gun.

"He looks sick," thought Reddy. "Yes, sir, he looks sick. I guess at last my chance has come to catch Peter Rabbit. He has been smart enough to keep away from my teeth for a long time, but it looks as if my chance has come now. If Peter was hit by that terrible gun, he isn't likely to be taking himself for some time, even though he is not badly hurt. I'll just make myself comfortable and watch."

Now, Reddy Fox is nothing if not patient. He has patience without end, and there is something worth waiting for. Reddy can wait a very long time. He felt that there was something worth waiting for now and he was more careful for a long watchful wait. Nothing happened. Peter had settled down again and looked to be half asleep. But Reddy was smart enough to know that it was because he felt so miserable that Peter seemed to be half asleep. He had seen Peter's eyes when they were open and they were dull. Reddy knew that had Peter been himself those eyes would have been bright.

Now, there was one thing that Reddy didn't forget. He was too crafty to forget it. This was that merry little breeze that wandered about might carry his secret to Peter Rabbit and thus give Peter warning. So, when Reddy noticed that the breeze was changing and was gradually getting around to the other side of that bramble tangle and once more settled himself to watch and wait.

Health and Diet

ADVICE
by DR. FRANK MCCOY
Author of "The Fast Way to Health"

MATERNITY MORTALITY
It has been estimated that 15,000 mothers die from childbirth in the United States every year. In spite of the wonderful hospitals and skilled obstetrical care, probably here more mothers pay the supreme sacrifice while giving life than in any other nation of the world.

There are some countries who lose only half as many mothers as we do. A mother in Italy, The Netherlands, Sweden or Norway stands only 50 per cent of the chance of death that the mother in America has to stand. Holland wins the honor by having the lowest death rate of all since for every thousand babies born only 23 mothers are lost in this country. For every thousand babies born alive 67 mothers die. The rate for Scotland is 5.8, then comes Germany with 5.2. England has lowered her rate to 3.8. Italy's rate is 2.7. In Scandinavia the rate is well under 2. In white women between the ages of 15 and 44, motherhood comes as a cause of death second only to tuberculosis. Is there any reason why we cannot lower this death rate at least to that of Holland? Sixty-five per cent of the maternity deaths are due to blood poisoning. These cases occur more often in city women than to women of the country. The usual cause of septicemia has been traced to the doctor who is in too great a hurry, and delivers with instruments, lacking the patience to wait until nature attends to the delivery.

A patient with faulty habits of eating and elimination who is run down by fatigue, more likely to develop a case of infection even when the instruments are highly disinfected. I believe that the greatest factor in reducing the deaths from child bearing is the prenatal care. The mother should be carefully examined, measured, and her habits of living adjusted. She is the one person above all others who needs to live wisely, to eat the right things at the right time, to get enough sleep and exercise. Every hamlet in America, should have its center where instruction on these subjects can be given.

The young woman who is willing to have a baby, to go through with the ordeal of its birth, to care for it and cherish it, to make a home for it where it will be cared for, and to lavish on it all of the tenderness and sweetness which have made the name of mother the grandest name in the world, should not have to run the risk of any needless dangers before she can clasp her precious bundle. Let us organize to save the mothers.

To any who are interested, I will be very pleased to send my motherhood series which outlines the diet and hygienic care that I have found most advisable in this extremely important period of a woman's life. Simply write to me in care of this newspaper and enclose a large self-addressed, stamped envelope with your request, and the articles will be sent to you without charge as soon as possible.

Articles on similar subjects which I have prepared for free distribution, please send 3-cent stamp for each article you desire. This is to partially pay for preparation and postage.

That bramble tangle is a small one," thought Reddy. "I don't think there is much for Peter to eat in there. When he gets hungry—and he will get hungry even though he is hurt—he'll leave that bramble tangle to look for something to eat somewhere else. I hope he'll get hungry soon. For myself, I'm getting hungrier every minute. Just looking at Peter makes me hungry. Yes, sir, it does!"

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 3 o'clock Mrs. A. J. Wyman conducts a free class and demonstration of good cooking in the room of the Southwest Building, 130 South Broadway.

DEVILED CLAMS
Four cups of minced clams, two tablespoons of butter, three tablespoons of flour, a slight seasoning of salt, one teaspoonful of paprika, one teaspoonful of mustard, one tablespoonful of chopped parsley, one cupful of the clam liquor, one teaspoonful of Worcestershire sauce, one teaspoonful of lemon juice, one-fourth of a cupful of cream. Strain the clams, and reserve the juice, melt the butter, and the flour, salt, paprika and mustard, add the clam liquor slowly and cook until thick and smooth, add the parsley, Worcestershire sauce, lemon juice and cream. Add the chopped clams, and allow to simmer slowly for five minutes, place a piece of crisp toast in the bottom of individual tarts, fill with the mixture, cover the top with buttered bread crumbs, and set in the oven to brown.

CREAM OF CARROT SOUP
Peel and grate one and one-half cups of raw carrots, three cups of milk, one-half a cupful of thin cream, three tablespoonsful of butter, one and one-half tablespoonsful of flour, one-half of a small onion, one teaspoonful of salt, a little white pepper, one-fourth of a teaspoonful of Worcestershire sauce, one-half a bay leaf, place the milk in a saucepan, add the carrots, onion, and spices, and simmer slowly till the carrots are tender, remove the onion and bay leaf, cream the butter and flour, add to the soup, and serve.

APPLE STUFFING
Four medium-sized apples, one and one-half cups of milk, one and one-half cups of bread crumbs, one teaspoonful of salt, one teaspoonful of sugar, and one-half teaspoonful of nutmeg. Core and quarter the apples, add the sugar and nutmeg to the milk, and cook until thick, then add the bread crumbs and nutmeg, and mix the stuffing.

QUICK CHOCOLATE
Three squares of chocolate, three squares of sugar, the sugar, the chocolate in a saucepan, add the milk, and cook until thick, then add the bread crumbs and nutmeg, and mix the stuffing.

LARGE CROWD AT PREMIERE

"Sunny Side Up" Opens at Chinese Theater

Janet Gaynor and Charles Farrell in Music Film

El Brendel and Others Hit With Comedy

BY EDWIN SCHALLERT

Welcome Cinderella! With some such cheering word as this may the advent of "Sunny Side Up" be greeted. A talking and musical feature, it had its first showing last night at Grauman's Chinese Theater, and served as the first full-fledged adventure of Charles Farrell and Janet Gaynor in the musical medium.

De Silva, Brown and Henderson are credited with the story, words and music of this production, and David Butler with the direction. The opening showing was typically pretentious and drew a scanty audience. Indeed, it had all the marks of a picture which is typical of a major Hollywood first evening.

Serious debate by the initiated as to whether "Sunny Side Up" is just the sort of picture to justify all the first-night celebration, but then who knows?—distinctive elements of plot and situation are not always so necessary when the world of picturegoers seems still under the spell of sound's novelty.

The points of attraction in this offering are not absent, and certainly, for better or for worse, it presents two highly popular screen stars in a form of entertainment that is for them, distinctly new and different. It may be noted in this connection that both Miss Gaynor and Mr. Farrell are allotted numbers to sing, and Miss Gaynor does a dance in addition.

There is heads that rare comedian El Brendel, who is almost by way of being the star, and Margie White and Frank Richardson who are popular in their manner of rendering a comedy musical number. Singing and dancing come to a manifest share of attention—to some extent in the East Side street scene, but more especially in a charity entertainment that is depicted in the latter part of the film. Here the camera is actively used in pictorial transitions.

The story of "Sunny Side Up" bears a kinship to the familiar "Bully" plot, in that the poor little girl becomes the entertainer of the rich folk in a swagger social colony. Molly Carr, the heroine, is unmistakably the Cinderella, and the Prince Charming and the most as a result of an automobile accident. Need one go farther in relating what happens?

It is only fair to mention that some rather ingenious twists are devised right at the close of the film, so that suspense is not lacking. Cinderella's determination not to wed her Prince Charming gives color to the final situations in the picture, and there is a very genuine opportunity for Miss Gaynor to emote when she is accused of being a bad little girl by the hero's mother. Indeed, she appeals most effectively with her talking of the "Aren't We All" song number, which, so to say, is her theme song.

The musical embellishments of this picture are creditable enough—what with the "Keep Your Sunny Side Up" (whatever that means) and the "Some Day You'll Be Sorry, No." in addition to "Aren't We All?" It is regrettable that De Silva, Brown and Henderson did not do better by their plot. They might have sought to endow it with greater aspects of novelty, at any rate, considering the exceedingly clever stage hits they have written.

For their injection of an East Side Fourth of July celebration, provided they were responsible for this, and for a number of lighter touches in the picture they are to be amply credited. I rather think, however, that David Butler's flair for humor, which I believe he has exhibited before, may be somewhat lacking in this. There are some exceedingly funny moments in "Sunny Side Up," and they are to some extent redeeming. Breckinridge is conspicuously to the laughter. So, too, does Miss White and incidentally, Richardson. The picture is slow in starting, and the earlier dialogue is not above the reproach of dullness.

Of Miss Gaynor's possibilities as a screen star with voice what may one say? She was heard to speak before in "The Four Devils," but just briefly. In the current picture, she has no lack of opportunities. Her voice has a peculiar native quality that many may find heart-louching. Personally, I relish those scenes in which she has to depend on her rare gifts for facial expression. Her singing of "Sunny Side Up" is her best effort in the vocal line. The tender "Mammy-ize" an earlier song is scarcely engaging. Miss Gaynor remains rare and fascinating as type, but she has yet to make her transition convincingly to the talkie form of entertainment.

Charles Farrell's role is one of the negligible import as are mostly those of Cinderella's consorts. It is sufficient, perhaps, that his likable presence is visible on the screen, and to his credit may it be said that he speaks his lines naturally, if not with the most vivid inflection. Sharon Lynn and Mary Forbes satisfy, and Peter Gawthorne is excellent.

All the members of the cast were introduced at the close of the picture and received huge applause, especially Miss Gaynor and Farrell. Mention must be made of the notable interest attaching to the Walt Disney comic "Springtime for Helen" cartoon. This is true art, a marvelously refreshing short subject. Indeed, it is half the show.

The overture, "The Songs of New York," was presented by Gino Severi, as conductor.

Noted Star Turns to New Medium

Gloria Swanson
Is said to reveal new and startling talent in "The Trespasser," her first all-talking and singing picture, which starts today at the United Artists' Theater.

LOEW'S REVEALS BOOKINGS

Richard Barthelmess in "Young Nowheres," scheduled to start tomorrow at Loew's State, heads a new list of attractive screen bookings revealed by the theater and including the latest pictures of Greta Garbo, Joan Crawford and two features in popular showings. "Marianne" will be screened at Loew's State the week of the 14th. The following week will mark the premiere of what is described as one of the most amazing productions, from the standpoint of histrionic versatility, to be offered. Paul Muni, the star who was recently signed by Fox on a long-term contract, portrays seven distinct roles. The picture is titled "Seven Faces."

Barrie Comedy Presented by Noted Reader

Miss Virginia Wiles' presentation of drama in miniature in the Yvonne room of the Hollywood Knickerbocker Hotel last evening was a novelty in the line of dramatic offerings. Glad in a pleasing costume of the early nineteenth century, Miss Wiles read a condensed version of J. M. Barrie's whimsical comedy, "Quality Street," in a manner which awakens memories of Maude Adams, who created the part of Phoebe Throssel in this country. Miss Wiles' tonal effects and inflections carried throughout the hall with musical resonance. One of the features of the program was with her portrayal of all the different characters, her ability to convey so much with voice variation without recourse to exaggeration. Each act was given a verbal setting.

'Virginian' Will Hold Over for Another Week

"The Virginian," the epic picture of the pioneer west, will be held over for another week at the Paramount. This is the second time in the history of the theater that the management has deviated from the fixed change-a-week policy. With Gary Cooper, Mary Brian, Richard Arlen and Walter Huston in the leading roles, "The Virginian" has been thrilling theatergoers with its lines created by Owen Wister. He has been the first all-talking outdoor epic picture and is said to establish a new standard in audible cinema.

Another feature of this week's program is a Christie laugh play, "He Did His Best." The cast includes Kathryn McGuire, Caramel Myers and Kathryn McGuire.

'Bird in Hand' Starts Run at Biltmore Soon

Playgoers of Los Angeles, desirous of obtaining the choicest seat locations for John Drinkwater's "Bird in Hand," which will be presented by Lee Shubert at the Biltmore Theater Monday, are now sending in mail orders for the local performances of this comedy.

John Drinkwater, a noted British dramatist, was renowned in this country a decade ago with his production of "Abraham Lincoln," since then he has added other biographical dramas, all of a serious trend, to his credit, but "Bird in Hand" is his first attempt at a comedy.

MUSIC ASSOCIATION PLANS "HIGH JINKS"

Tonight is the last dress rehearsal for the musical farce, "High Jinks," which is to be presented by the Santa Monica Bay Music Association tomorrow night at the Municipal Auditorium. R. M. Mainger, who is staging the performance, and Hans Linna, the musical director, have been putting on the finishing touches during the last few rehearsals.

Rainer, who staged the New York production, has been stressing the points in the play that made it a success in New York, and in this way making it a potential hit for the performance tomorrow night.

EL CAPITAN ANNOUNCES NEW PLAY

Frances Starr Signed by Duffy for Leading Role in "Shell"

When Charlotte Greenwood departs from El Capitan after her record-breaking engagement, she will be followed by another noted feminine star. This will be Frances Starr, the distinguished actress, who is coming to El Capitan, starting on the 17th. In her latest comedy success, "The Shell."

For seasons, Miss Starr has been in the front rank of American actresses. Her performance of "The Shell" was only one of the many plays in which she has excelled under David Belasco's management. She starred at Juarez in "The Rose of the Andes," "The Secret," "The Case of Becky," "Marie-Odile" and many others.

"The Shell" was written especially for her by Derris Davis and in the comedy Miss Starr has the role of Stella Amaranth, an attractive widow who refuses to admit she has passed the age for romance.

George Arliss Makes Screen Talking Debut

"Darsell" starring George Arliss, starts tomorrow at Warner Brothers Hollywood Theater. This Warner Brothers Vitaphone production, adapted from the stage success of the same name, was chosen as the first all-talking picture for this great American actor. Arliss now brings the quiet character of Darsell to the audible screen.

Joan Bennett, Florence Arliss, Anthony Bushell, David Torrence, Henry Burr, Louis H. Parker and Doris Lloyd, Joan Bennett and many others will support the star. "Darsell" was adapted from the stage play by Louis H. Parker and was directed by Alfred E. Green. The final showings of "The Careless Age," the First National Vitaphone picture featuring Douglas Fairbanks, Jr., and Loretta Young will be today.

WRITERS ADDED

Henry McCarty and Humphrey Pearson have been added to the staff of story and dialog writers at First National by Alfred Cohen, head of the scenario department.

TEST TILTS LISTED FOR PREPSTERS

Four Trial Contests Set
for Saturday; Coronado to
Meet Long Beach

BY IRVING ECKHOFF
The Southern California prep
football play-off officially starts this
week-end with four "test games"

scheduled. Seth Van Patten, ath-

letic director of the southern
section of the C.F.A., announced
the games last night. All of them
will be played Saturday.

Coronado High, leading
contender of the Southern League,
will come up to the Long Beach
arena to meet the Long Beach
team.

Both eleven
best victories
over the strong San Diego High
out.

It is rumored that Coronado is a
very high scoring aggregation, run-

ning 101 points in one game.

The other three "test games"

will find Coach Tex Oliver's strong Santa Ana

team meeting the San Diego team.

GILL IS A WELL-KNOWN NAME IN CALIFORNIA FOOTBALL CIRCLES

And here are four reasons for it. All of them were in college at Berkeley together last year, and there are still three left. One of them—Ruston (Rusty)—played a big part in the Bears' victory over the Trojans at the Coliseum last Saturday. He was the young man who wore No. 17 on his jersey, and hit 'em hard and low all the time, scoring one of the two touchdowns for the victors. From left to right in the photo are Frank Gill, varsity half who graduated last spring; Harry, varsity guard two years and a sub this season; Ruston, the 1929 varsity fullback find, and Stan, who plays end on the freshman team. Ruston is a sophomore.

FORDHAM HELD TO TIE

West Virginia Battles Maroons in Scoreless Tilt on
Gotham Gridiron; Thrills Galore

NEW YORK, Nov. 5. (P)—Fordham and West Virginia University
played a scoreless tie today, the New Yorkers driving 72 yards in the
closing minutes but falling twelve inches short of a touchdown as the
game ended.

The gallant fighting mountain
band from West Virginia gave the
Maroons every chance, but all over-

tures of Old Man Opportunity were steadfastly
rejected by the home team.

Fordham fumbled
the ball, but had
his record un-

dermined by the
second tie of the
season. The first
tie was with
West Virginia
origin, a 6-0 tie
decided with
Davis and E-

kins.

West Virginia had two great
chances in the first five minutes of
play when a Fordham fumble
caused apprehension in the Cava-

naugh camp, but when Fordham
stopped this drive its time of stress
was over from a defensive stand-

point. The Maroon offensive did
not start to function until it was
too late. The one sustained drive
was under way when the game
ended.

The big thrill came at the close
when Fordham practically talked
himself out of a chance to win the
game. After the players left a bud-

dle with the last intercollegiate
yard from the Mountaineer goal they ran
back to talk it over again. But for
this second thought they might have
had time to make the twelve inches
they were short when the time ran
out.

LOMSKI MATCHED
CHICAGO, Nov. 5. (P)—George
Courtney, Oklahoma light-heavy-
weight, and Leo Lomski, Aberdeen
(Wash.) puncher, have been
matched for a ten-round bout at
Olympia Arena, Detroit, the 15th
out.

HANOVER (N. H.) Nov. 5. (P)—
Al Marsters, Dartmouth backfield
star and high scorer of the East, has
played his last intercollegiate foot-

ball game, Dr. John S. O. Gile, who
has been treating him for the back
injury received in last week's Yale
game, announced today.

Dr. Gile said an X-ray disclosed
that the Dartmouth quarterback was
suffering from a fractured vertebra
when he limped out of the Yale
bowl last Saturday. This in-

jury, Dr. Gile said, would keep
Marsters confined to the college in-
firmary for the next four weeks.

The physician said the injury would
not have any permanent effect.

The injury, however, will bring
to a close the career of one of
Dartmouth's greatest football

heroes in the midst of his great-
est season. "Special" Marsters
has scored 108 points in the six
games Dartmouth has played this
season, a total higher than that
of any other eastern player.

He was well on his way to
all-American honors. Marsters
started his varsity career on a
career two years ago, making a
sensational debut as a half-

back.

Dr. Gile said his patient was
keenly disappointed but was re-

turning to his class work.

COASTERS SETTLE BONUS SPLIT

Magnates Adjourn Catalina Meeting After Deciding How
\$15,000 Is to Be Divided; Unusually Tame Session
Comes to End Without Single Trade Announced

BY BOB RAY
AVALON, CATALINA ISLAND,
Nov. 5.—All good things must
come to an end and so the Pacific Coast
League magnates, although
enjoying themselves immensely
on the island, adjourned their
annual meeting this morning
after cleaning up what was left
of the session.

Among the other bits of business
performed by the moguls in their
short morning session was to offi-

cially award Hollywood the 1929
championship, name Oakland the
scene of their next meeting, which
takes place January 29, and accept
the resignation as a league director
of J. Cal Ewing, the veteran ex-

president of the Oakland club, who
sold out his interests to Bob Miller,
Carl Zamoich and Vic Devincent.

The resignation of Ewing re-

moves from the league its most col-

orful personality—a man who re-

ally saved the Pacific Coast circuit
from disaster in 1905, after the San
Francisco earthquake when he
financed four clubs through the
lean year.

Ewing will remain as ad-

visory director for the Oakland
club, but it is said that he has
his eyes on the Coast League
presidency. The rumor also has
it that Cal had been promised
the position and already pos-

sessed enough votes to elect him
when President Harry A. Wil-

liams's two-year term ends next
November.

However, the Lane-Turner-
Kieffer-Ewing faction failed in its
efforts to knock Williams out of
the presidency last winter and may
have just as tough a job on their
hands again next November.

Williams has proven a worthy and
efficient president and deserves re-

election.

The Coast League owners de-

clined to take no action toward the
formation and backing of a new
league circuit in the Northwest.

Such initiative, they said, was not
for their hands.

As a final act of their meeting,
the Coast League voted \$750 to the
Hall of Fame Association of America,
an organization for the care of sick
and indigent diamond athletes.

In the event that one team
wins both halves and no play-

off is necessary, the winning

team will be declared the winner.

Bear Seconds Hold Practice

BERKELEY, Nov. 5. (P)—While
the varsity still enjoyed the fruits
of its victory over Southern Cal-

ifornia in the form of a light work-

out, California's second team came
in for the bulk of attention in to-

day's practice session.

The second team's backfield found
Ed Kirwin, sophomore find, calling
signals; Ralph Seely and Moore
Garry, a made-over fullback, work-

ing out as halves, and Joe Hick-

ing as fullback.

Other regulars on the line filled
out the rest of the backfield.

TROJAN SQUAD RESUMES WORK

Williamson at Center on
First Outfit

Jurich Takes Arbelbide's
End Position

Moses Keep Off First String
Due to Injury

BY HEAVEN DYER
As had been predicted, there were
some changes made when Howard
Jones greeted his Southern Cal-

ifornia varsity
squad at Bo-

ward Field yester-

day afternoon. It
was the first work-

out since the
California game
of last Satur-

day, the boys
having been
given Monday
off.

Right off the
bat the Trojan
mentor, Bud
Stan Williamson,
son at center in
place of George

Dye. Williamson played part of the
first and all of the second half
against California and did a nice
job of it. He is more active than
Dye and Jones figures that he will
therefore be more valuable against
Notre Dame's intricate formations.

Tony Jurich replaced Garret
Arbelbide at right end. Jurich
likewise played against California
and showed up in more impressive
fashion than anyone had antici-

ated.

Tony Ready
When lining up his first eleven
Jones originally called for Tony
Steponovich at right end, but Tony,
who has been injured, was a lit-

tle late reporting due to classwork.
It is a lead-pipe clinch that he will
open the game against Notre Dame,
Dr. Packard Thurston, of the Tro-

jan medical staff, says that Stepa-

novich should be all right within a
few days.

Russ Saunders took charge
of the first eleven and will in
all probability open against
Notre Dame because of his pre-

vious experience in coming with
the Irish. Duffield, who was
laid up at the time of last year's
game, has never played against
Beck's outfit.

Edelson and Pinckert, the old re-

tailors of Troy's backfield, were in
their usual berths. Don Moses,
picked by Jones for the fullback
spot, reported in civilian clothes,
his shoulder in poor shape, as Jim
Musick remains in his usual spot.

Moser, it is said, will be ready for
Notre Dame.

Other regulars on the line filled
out the rest of the backfield.

DOYLE, CAMPBELL SIGN FOR HOLLYWOOD BATTLE

Two Doyle, San Jose heavyweight,
was signed yesterday to fight Frank
Campbell in the main event at
the Hollywood American Legion
Stadium Friday night. Tony Stab
insists on fighting Campbell, who
has stationed every opponent he has
fought since coming here from San
Francisco. Doyle is a better fighter
in every way than Stabins.

The newest and most talked-
of fighter in local circles is
Frankie Campbell. He has a
wallop and when he lands it
the crowd usually claps down
on that fight. Campbell is mak
ing a comeback. He retired from
the ring several months ago,
but friends persuaded him to
return to the game and make
some of the would-be heavy
weight contenders take cover.

Henry Goldberg, New York light-
heavyweight, is making his first
start against Joe Blito in the semi-
final. Goldberg looks like a good
fighter, but in Blito he meets the
freakiest fighter in the game. Leon
ard Bennett fights Johnny Ramirez
in the special.

The four-rounders are Pat Cum
mingsham, fighting Jack Charves in
the second spot, and Young Brown,
famous as a main-eventer in the
four-round days, battling Aurelio
Khanon in the curtain raiser.

Pennsylvania: Boston College
and Fordham; Dartmouth and
Brown; Navy and Georgetown;
and Lafayette and Rutgers.
Pittsburgh, one of the most
powerful teams in the country,
will be standing up to a
formidable defense aggregation
in W. J. The Presidents, tied
twice, but unbeaten, have per
mitted only 4 points to be
scored against them. Colgate,
defeated only by Wisconsin,
looks too rugged for Columbia,
and Lafayette will be favored
over Rutgers.

Davis and Elkins, with only a tie
with Fordham to mar an otherwise
perfect record, meets West Virginia
Wednesday.

Princeton, with only one victory
to show for its season, will be ex
pected to add another at Elgin's
expense. Bucknell may inflict on
Villanova its first defeat, although
a Villanova victory is not by any
means impossible.

ends. Duffield played quarter with
Hill at full and Apelt and Morten
sen as linebackers.

ON TO NOTRE DAME
In his talk prior to the start of
practice, Jones was considerably less
victorious than many had expected.
He went over certain points in the
game rather quietly, criticized a
couple of players who were out of
position on Benny Lem's 85-yard
run, admonished them to pay more
attention to instructions in the fu
ture and then declared preparations
would start for the Notre Dame
game.

Clifton B. Herd took the
Spartans in tow and with Morley
by impersonating Jack Elder,
preceeded to get some formations
ready for tonight's performance.
Drury impersonating Jack Elder,
by a long shot, but Morley, al
though a few yards off, played
the Irish, known for their for
mations to some extent and can
be depended on to give the vari
ety a good workout.

Aubrey Devine, expected back
yesterday, had not arrived at a late
hour, but will probably catch on
today. He had already mailed data
on Irish plays, etc.

Due to the fact that departure for
Notre Dame is slated for next
Tuesday all of this week will have
to be given over to work on Irish
formations. Nevada, opposing the
Trojans here Saturday, can hardly
make more than a California match
anyway, which makes it nice in
a way for Jones needs all his time
for Notre Dame.

The best game of the day Satur
day will undoubtedly be the froth
contest between teams of Southern
California and U.C.L.A. This af
fair is slated to start at 12:15
o'clock.

Herd and Gordon Campbell will
leave Los Angeles tonight for the
Northwest, where they are to scout
Washington State and Idaho Sat
urday. The Trojans play the Van
dals and Cougars one after another
following their return from Chicago
and the S.C. scouts will two birds
with one look this week, as these
teams battle each other at Pull
man.

WEIGHT LIFTERS TO
TRY FOR NEW MARKS
An attempt for new world's
weight-lifting records will be made
this evening by the Los Angeles
Athletic Club strong men in an
intramural tournament at the Mer
cury Club. The meet will be held
at 8:30 o'clock in the weight-lifting
rooms on the seventh floor and will
be open to the public. The regular
five Olympic lifts will be held. The
following Mercurians will take part:
Commissioner Jerry Klingberg,
Philip Greco, Mario Secretani,
Nathan McCann, Frank McCann,
Leonard Wells, Sam Cronin, Ma
rice Aroff, Al Levy, Charles Beck,
Bert Ferris and Herb Grispier.

ROCKETTES HOLD CONF
Sponsored by local fans, a meet
ing of field hockey men will be held
at Spaulding's, 718 South Hill street,
tomorrow night at 8 o'clock. The
meeting is for the purpose of dis
cussing the organization of the Los
Angeles Field Hockey Men's As
sociation. All those interested are
earnestly requested to attend.

NO FUN POUNDING
THE PAVEMENTS
ALL DAY!
No two of the fourteen men I
had to see today were in the same
black. And not far enough to take
a taxi. But I've walked miles, and
maybe my poor feet haven't com
plained! Really never was so tired
in all my life.

Conversations like that are not
at all unusual in the clubs and
homes of hustling young business
men. They may be entertaining but
they are uninformative—unaware of
the fact that there is really no re
ason why they should come in
after every busy day with tired and
aching feet. They just haven't heard
about Arnold Glove-Grip Shoes.

Here is one shoe that offers the
best conservative styles, the kind
that appeal to the man who takes
pride in his appearance. Excellent
wearing qualities and real shoe com
fort. Nowhere else can you find
comfort that is so consistent. Arnold
Glove-Grips, due to the special ex
clusive feature, fit correctly, natu
rally, as though made to order for
you. Around the instep a gentle
support actually defies fatigue.

We should be pleased to show you
our Arnold Glove-Grip Shoes. See
the many new styles, for dress, busi
ness, or sport. Take just a few steps
in a pair. The chances are you will
wear Glove-Grip Shoes from then on.

the Irish, known for their for
mations to some extent and can
be depended on to give the vari
ety a good workout.

Aubrey Devine, expected back
yesterday, had not arrived at a late
hour, but will probably catch on
today. He had already mailed data
on Irish plays, etc.

Due to the fact that departure for
Notre Dame is slated for next
Tuesday all of this week will have
to be given over to work on Irish
formations. Nevada, opposing the
Trojans here Saturday, can hardly
make more than a California match
anyway, which makes it nice in
a way for Jones needs all his time
for Notre Dame.

The best game of the day Satur
day will undoubtedly be the froth
contest between teams of Southern
California and U.C.L.A. This af
fair is slated to start at 12:15
o'clock.

Herd and Gordon Campbell will
leave Los Angeles tonight for the
Northwest, where they are to scout
Washington State and Idaho Sat
urday. The Trojans play the Van
dals and Cougars one after another
following their return from Chicago
and the S.C. scouts will two birds
with one look this week, as these
teams battle each other at Pull
man.

WEIGHT LIFTERS TO
TRY FOR NEW MARKS
An attempt for new world's
weight-lifting records will be made
this evening by the Los Angeles
Athletic Club strong men in an
intramural tournament at the Mer
cury Club. The meet will be held
at 8:30 o'clock in the weight-lifting
rooms on the seventh floor and will
be open to the public. The regular
five Olympic lifts will be held. The
following Mercurians will take part:
Commissioner Jerry Klingberg,
Philip Greco, Mario Secretani,
Nathan McCann, Frank McCann,
Leonard Wells, Sam Cronin, Ma
rice Aroff, Al Levy, Charles Beck,
Bert Ferris and Herb Grispier.

ROCKETTES HOLD CONF
Sponsored by local fans, a meet
ing of field hockey men will be held
at Spaulding's, 718 South Hill street,
tomorrow night at 8 o'clock. The
meeting is for the purpose of dis
cussing the organization of the Los
Angeles Field Hockey Men's As
sociation. All those interested are
earnestly requested to attend.

NO FUN POUNDING
THE PAVEMENTS
ALL DAY!
No two of the fourteen men I
had to see today were in the same
black. And not far enough to take
a taxi. But I've walked miles, and
maybe my poor feet haven't com
plained! Really never was so tired
in all my life.

Conversations like that are not
at all unusual in the clubs and
homes of hustling young business
men. They may be entertaining but
they are uninformative—unaware of
the fact that there is really no re
ason why they should come in
after every busy day with tired and
aching feet. They just haven't heard
about Arnold Glove-Grip Shoes.

Here is one shoe that offers the
best conservative styles, the kind
that appeal to the man who takes
pride in his appearance. Excellent
wearing qualities and real shoe com
fort. Nowhere else can you find
comfort that is so consistent. Arnold
Glove-Grips, due to the special ex
clusive feature, fit correctly, natu
rally, as though made to order for
you. Around the instep a gentle
support actually defies fatigue.

We should be pleased to show you
our Arnold Glove-Grip Shoes. See
the many new styles, for dress, busi
ness, or sport. Take just a few steps
in a pair. The chances are you will
wear Glove-Grip Shoes from then on.

LIONS, BEARS IN PUCK CLASH TONIGHT

Two big, husky ice-hockey out
fits, the Gilmore Lions and Sun
freese Bears, clash tonight at the
Winter Garden Ice Palace in the
second game of the Southern Cal
ifornia Amateur Hockey League.
Action and still more action is
promised. Both teams are power
ful and have lots of fight—the
Bears having so much of the latter,
in fact, that penalties were rife in
their last game.

Ted Le Roy's Lions will take the
ice slight favorites, largely due to
the fact they won the loop title
last year. In a hectic contest,
though, Sunfreese held the strong
Union Oil Pirates to a 3-2 win last
Saturday in a battle that went two

extra periods before the victor was
decided.
